## Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

## Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

Dear Sir:-

I am in receipt of a request from Mr. Indian Agent Taylor, of the Williams Lake Agency, for authority to expend $75.00 for the purchase of manual training tools for the Cariboo Indian Residential School.

I would appreciate advice as to whether this amount could be made available. If so, I will secure a list of tools necessary and obtain tenders on same.

Yours faithfully,

for D. M. MacKay.

REPORT ON WILLIAMS LAKE AGENCY FOR THE MONTH OF FEBRUARY, 1943.

x x x

Mr. H.A. MacArthur, Provincial Inspector of Schools, inspected the Cariboo Indian School on the 18th and was rather critical of some aspects of its operation which I am inclined to agree with. In order to stimulate more interest in vocational training I would suggest for a start, two potato clubs, one for the boys and one for the girls. The Department is being requisitioned for one ton of certified seed potatoes, which will supply 20 children with one sack of seed each.

Ottawa,
March 13, 1943.

Reverend Sir:

In reporting on his inspection of the Cariboo Indian Residential School on the 18th ultimo, Mr. H. McArthur, Inspector of Schools, writes as follows regarding vocational training:

"In this school all pupils spend the whole of every Monday and two hours of every other weekday, including Saturday, at farm and household tasks. There is no wood-working department, and no provision is made for craft work of any kind.

"Insofar as I could learn, no vocational clubs of any kind are operated; no steps are taken to co-ordinate outside jobs with classroom teaching; and no organized attempt is made by outside supervisors to carry out specific educational aims.

"Although this programme is doubtless far from valueless, its defects are obvious. While it gives opportunities for pupils to pick up a variety of skills, it does not insure an understanding of principles, and it seems to leave the matter of interest largely to chance.

"I hope to have an opportunity of discussing with Principal McGrath methods of improving it. (Owing to a death in his family Principal McGrath was unfortunately absent during my visit.)"

I should appreciate receiving, as soon as possible, your comments regarding the Inspector's remarks. In reviewing our file I find that for some years past we have been allowing an amount of $50.00 a month toward the salary of the manual training instructor. The last payment we were requested to make in this regard was for the quarter ended March 31, 1942. Are we to infer that you have not employed any manual training instructor since that time?

Under separate cover you are being sent another letter with regard to other remarks of the Inspector.

Yours truly,

Mr. Wm. Christie, Indian Agent, Williams Lake, B.C.

I note from your February report that you have heard Mr. McArthur's criticisms of the vocational training at the Cariboo Indian Residential School. For your information I enclose a copy of a letter which is being directed to the Principal and no doubt you will have an opportunity of discussing the whole matter with him.

I note your suggestion to start potato clubs, one for the boys and one for the girls. While you do not say so exactly, I infer that you mean the children in the residential school. If so, have you consulted the Principal with a view to ascertaining if land will be available? Have you also discussed with him the area which each pupil should be encouraged to cultivate? The Department feels that one sack of seed for each child is too much. Have you considered the possibility of a garden plot in which the potatoes would be planted and cared for by two or three children? In suggesting this project I presume you not only wish to encourage growing potatoes, but you desire the work to have some permanent training value for the children concerned. If you start on too large a scale the work involved will be such that the children will be inclined to feel that it is drudgery rather than something in which they are anxious to participate. If that condition arises, the training value is lost. It would, therefore, be appreciated if you would discuss the whole matter with the Principal and let me hear further from you.

Yours file 160-0-11

In regard to your letter of the 13th instant regarding Vocational Training at the Cariboo Indian Residential School, the question of organizing clubs in connection with vocational training has been discussed with the Principal several times and I have given him literature on the aims of these clubs as prepared by the University of Manitoba and also the schedule prepared by the British Columbia Department of Agriculture in connection with the Boys' and Girls' Clubs.

I might say that I have had some experience in organizing calf clubs and potato clubs amongst the White children before becoming an Indian Agent and was rather surprised at the interest of the White children and their parents and also the beneficial results apparent therefrom in an isolated mixed farming community.

At Bella Coola as you may have noted, a potato club was started amongst the Indian children in 1941 which I considered quite a successful beginning. This club was recognized by the Dominion Council of Boys' and Girls' Clubs which was willing at that time at least to recognize similar clubs amongst Indian children on the same basis as Whites, the Provincial Government donating half of the prize money.

In order to have these clubs recognized by the Provincial Government and Dominion Council, it is necessary to adhere to certain regulations. In connection with potato clubs each boy or girl must look after 1/10 of an acre of potatoes, and they recommend one sack of certified seed for each , although this depends to a great extent on the kind of seed potato one is planting--eight sacks are usually sufficient per acre of ground. The ploughing and cultivating need not be done by the children which can be understood, since these clubs are open to boys and girls of from 10 to 21 years.

Another reason for having these clubs on a similar footing to that for White children is that the Provincial Government potato Inspector will inspect the growing crop and also the crop when harvested, pointing out to the children the various diseases.

In the case of calf clubs, pig clubs and poultry clubs assistance is usually willingly given by the Provincial District Agriculturist.

The Cariboo Indian Mission School is idealy situated for the operatinn of such clubs as they have a large farm, with about 200 acres under cultivation with a possible 400 acres suitable for cultivation. They keep around 600 head of beef cattle, a dairy herd, pigs, chickens, and since the Indians in this Agency depend on agriculture for the most of their living, full

advantage should be taken of the facilities which could so easily be provided at this school for vocational training suited to them not only in stock raising and grain growing but in the care and operation of farm machinery.

No doubt the children pick up a few things since some of the boys milk and the graduate class of girls each year stay on during the summer holidays and help can vegetables, but there is, as Inspector McArthur has pointed out, no organized attempt to co-ordinate class room work with outside activities. The clubs mentioned would not provide for all the vocational training but they would provide a competative spirit and their subsequent operation on the Reserves would be an excellent basis of contact after these pupils leave school.

Rev. Fr. McGrath, Principal of this school, came last August and I am afraid he was very badly disappointed in the whole thing, buildings, some of the staff and methods. He has tried hard to get a manual training instructor and a good dairyman without any success so far. One dairyman that he got after looking at the living quarters, returned the same day by the outgoing train.

In discussing these clubs with Father McGrath, I pointed out that I would like to see them started in the Residential School first where adequate supervision could be exercised, picking out pupils from different Reserves. When these pupils returned to the Reserve I intend to use them as leaders in operating similar clubs on the Reserves, thus keeping up the interest and the contacts.

For instance, regarding calf clubs, some of the best clubs could compete at the Annual Williams Lake Cattle Sale held in the Fall and the boys and girls take part in stock judging competitions as is done in most of the fairs in this country. I am satisfied that only through an aggressive program such as this will anything worthwhile be accomplished, and that it is better to concentrate on the Indian Boys' and Girls than on their parents who are loth to change their old ways.

Although I am personally satisfied that a calf club and potato clubs could be successfully begun at the Cariboo School this year, the Principal's attitude is that he lacks sufficient staff, that he has no dairyman, and secondly in regard to the potato clubs, it is inadvisable to put certified seed in old potato ground and that he will have new land ploughed up this spring or summer for such a project in 1944, so that these clubs would appear to be definitely off for another year.

It is hoped that next year something may be done for the children in the Anahim and Redstone Reserves along this line where Day Schools have been authorized for next Academic year.

The promotion of such clubs in the different Reserves will of course take a lot of the Agent's time until there are competent local leaders and with all the extra work entailed due to the War and no part-time stenographic assistance obtainable it will be difficult to give these projects the time they should have.

Ottawa,
April 6, 1943.

Reverend Sir:

The Department is in receipt of an extremely interesting report from Indian Agent Christie with reference to the formation of calf clubs, pig clubs and poultry clubs among Indian children and particularly among the children of the Cariboo Indian Residential School.

I understand from the Agent's letter that he has already discussed the suggested procedure with you and I may say here that his proposals are exactly along the line of training which the Department desires encouraged and increased at your school.

Due to the acute shortage of food and the necessity for increasing production in every possible way, I feel that the formation of the activities suggested by Mr. Christie would not only aid in the national effort but would be a splendid training for the children.

I realize that there will be some difficulties to overcome, but I feel certain that the Department can depend on your active co-operation and interest in this important matter. We will, therefore, expect that immediately on receipt of this letter you will again confer with the Agent and the Department will await with interest more definite information regarding your plans for the 1943 season.

I have your letter of the 19th instant, with reference to supplying our manual training course of study to the Cariboo Indian Residential School.

On reviewing our file it is found that as far as we know the school has no manual training instructor. The last grant we made toward the salary of a manual training instructor at this school was for the quarter ended June, 1942. Has this school recently secured an instructor?

I am informed by Mr. Indian Agent Christie that the Cariboo Indian Residential School state that they were never furnished with the Manual Training Course of Study put out by the Department, and if such is the case it would be appreciated if you would kindly forward them this material, including the record and work sheets and prints. At present this phase of the work seems to be covered simply by having the boys assist the Manual Training Instructor in maintenance work.

Wm. Christie, Esq., Indian Agent, Williams Lake, B.C.

Referring to your letter of the 1st instant enclosing a voucher for $550.00 being part of the salary of Mr. George L. Felder for his services as Manual Training Instructor at the Cariboo Indian Residential School, I would request that you inform me what proportion of his total salary is the $50.00 per month applied for. If this man's work consists mostly of maintenance with some assistance by the pupils, the procedure of charging his time to the B.C. Special Vote is incorrect. Necessary repair work on the buildings and equipment would have to be carried out in any event. There would be no objection to the boys assisting in selected work of this nature as a practical training project but it should form part of a definite training curriculum as laid down by the Department in their Manual Training Course of Study which has been supplied to all Residential Schools in this Province, no doubt including the Cariboo School. This Course of Study sets out a definite program to be followed and it is for instruction in conformity with this program that we make a grant towards the Manual Training Instructor's salary. It would appear that the Course of Study may not be in use, but if so, please advise to what extent it has been followed during the period covered by your voucher.

re: Your File 215-16-7671
December 6/44

In reply to your letter of December 6th regarding voucher submitted for Manual Training Instructor, Cariboo Indian Residential School, I have taken the matter up with Father McGrath who informed me that he has never seen any Manual Training course of study in this school. He advised me, however, that during the afternoon the boys assisted the carpenter with repair and upkeep of the buildings.

It seems quite certain that there has been no definite program followed in the instruction of Manual Training at this school for some time, and I am beginning to doubt if there ever has been any program.

Under these circumstances, will you kindly forward a program of studies for a Manual Training Course, or advise me if same should be obtained from Ottawa.

I have to refer to Mr. Phelan's letter of January 26th wherein he advises that the Department has no knowledge of a Manual Training Instructor being employed at the Cariboo Indian Residential School since the end of June 1942.

In this connection, I would advise that we have been holding in this office Williams Lake Agency Voucher No. 331 in favour of this School in the amount of $550.00 covering the grant towards the salary of a Manual Training Instructor for the months of September, 1943, to June, 1944, inclusive, and September 1944, a total of 11 months, at $50.00 per month pending receipt of definite information from Mr. Indian Agent Christie regarding the manual training curriculum being followed at the School. The Voucher referred to is enclosed herewith, together with a copy of my letter of December 6th to Mr. Christie and his reply of January 17th. As this expenditure will no doubt be a charge against the B.C. Special Vote, it is not seen how payment could be made for any portion of the 1943-44 fiscal year nor is it considered that the expenditure would be a legitimate charge against the B.C. Special Vote in view of the very limited training carried out. I have, therefore, prepared a new Voucher No. 51-A enclosed herewith covering the grant of $50.00 per month towards the instructor's salary during the period April 1st, 1944, to September 30th, 1944, 4 months at $50.00 per month, and would recommend payment of this amount.

It would be appreciated if you would supply a Manual Training Course of Study to this School and advise if it

would be in order for Mr. Indian Agent Christie to submit Vouchers at the end of each quarter covering payment of the grant to the School.

Dear Father McGrath:

In further reference to my letter of the 12th instant, I wish to give you a brief outline of our objectives in regard to vocational training and the course in wood work and metal work.

You are aware that a teacher's work is to analyse his pupils, the work to be accomplished, make a selection, teach, test and reteach. The analysis must include the pupil "as is" as well as "as to be". The objectives, therefore, may be summarized:

1. Education must aim at preparing the pupil for a complete life in the sphere of influence in which he will be called to live.

2. To develop manual skill.

3. To provide an opportunity for the developing of creative expression.

Education should be a co-ordination between the classroom and all other training. This is a great means of obtaining the proper motivation which is essential to education.

In order to help you in outlining the work, I am sending the first three years' requirements for woodwork and metalwork. The operations indicated in this work may be carried out in the order most suitable to local conditions.

I am also sending a set of reference books,

which, I believe, the pupils will find useful.

As stated in my last letter, this does not comprise the complete set-up but I believe will be sufficient to carry on without creating the difficulties referred to in my previous letter.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

Feb. 27th. 1945

Mr. Philip Phelan,
Chief, Training Division
Dept. of Indian Affairs,
Ottawa Ont.

Dear Mr. Phelan;

I am in receipt of your letter of Feb 12th as well as your letter and enclosures of Feb. 14th. Thank you very much.

I certainly was very pleased to receive the cheque for $550.00 for refund of Manual Trainer's Salary. Our School funds are quite low at present. Our enrollment has been down this year and on that account we have lost about $1200.00 from the per capita for the last two quarters. I am sure that you realize that the overhead in a school like this is not materially changed by the addition or absence of twenty or thirty children but the loss of the per capita grant for these children has been quite a hardship for us. I have done what I could to bring the enrollment up to our quota and I have asked Mr. Christie to do what he could but the children have been very slow in coming in. The opening of the day school at Anaham has taken away a good number of children who would normally be in school here but even without them I believe there are enough children around in this district of school age to fill the school. I do not think Mr. Christie is in favor of bringing any pressure to bear on the parents of these children for fear they will make trouble.

I was talking to Mr. Christie last night about the lighting plant that we had applied for and he told me that he had just heard from you about it. He said that you were asking if we could pay part of the price of the plant. From what I have mentioned above, I am sure that you will realize that it would be impossible for us. Would it not be possible to allot for that purpose the $1200.00 which was normally to be set aside for this school for the per capita grant? I understand from Major MacKay that this money cannot be forwarded to us as per capita but possibly it could be used to help pay for the plant

Regarding your enclosed plans for Wood-working and metal work, I was very pleased to receive these. We have started today to put into operation the plans as ypu have sent them and it will be a great help to the manual trainer in giving the boys a systematized course. I should be glad to receive any further information that you might have along these lines. I have not yet received the reference books you mentioned in your letter but possibly these will be in today's mail (we receive mail only twice weekly)

When I wrote to the Indian Commissioner asking him if he would apply for the balance of our per capita grant for the last quarter, he told me that he did not think there was much chance of getting it but

that the Department might consider re-embursing us for the money we spent in having the laundry floor renewed. This had to be done immediately as it had all caved in and had to be rebuilt before the children returned. The floor was originally made of wood and no air vents had been provided under the floor, with the result that dry rot set in and the floor simply caved in. The new floor is cement and cost us $385.00. This with the $500.00 we paid for the laundry extractor went pretty hard with our school funds. The Commissioner did not mention in his letter if the Department was considering re-embursing us for these two items. I am sure that you will help us out in any way you can and I appreciate very much what you have already done.

Very truly yours,

Dear Father McGrath:

With reference to the third paragraph of your letter of the 27th ultimo, Indian Agent Christie was written yesterday regarding two engines surplus to requirements at another Indian residential school. No doubt, he will discuss the matter with you.

The books mentioned in my previous letter have been ordered from the Government Stationery Office. It is possible that it may be some time before they reach your school.

At the present time I am not certain if we can find the funds for the expenditure of $385.00 which you made in renewing the laundry floor. However, please forward the account, giving full details and attach receipts, if necessary. This account should be forwarded to Mr. Christie's office, and if at all possible to do so, the amount will be refunded before the close of the current fiscal year.

Yours sincerely,

QUARTERLY REPORT ENDING MARCH 31, 1945, ON WILLIAMS LAKE AGENCY

EDUCATION

Inspector McArthur visited the Cariboo Indian School during March and his report has no doubt been received by the Department by this time. Having been called out to the Chilcotin, I could not accompany Mr. McArthur on his inspection, but following his report, I paid a visit to the School some days later, and paid particular attention to the matters on which complaint was made and had the fire alarm sounded.

The children were very orderly in getting out of the buildings and were all out in under one minute. Fr. McGrath had already taken the locks off all the escape doors, the subject of a very legitimate complaint by Inspector McArthur. It is felt, however, that Mr. McArthur has exaggerated regarding the condition of the boys' dormitory, which has been painted up and is very considerably improved since last year. The improvements in this school since it opened last September have been very considerable, and are as follows:

Equipment: Laundry equipment, consisting of power washer and extractor, saving much time for the girls and improving hygienic conditions.

Vocational: Manual Training clases have been organized. Also Calf Club and Potato Club.

Recreational: The Pro-Rec. program has been continued. Three Skating rinks were maintained during the past winter, two for the boys and one for the girls. Hockey games were organized and matches played with boys from the Williams Lake white school.

A boys' fife and drum band has been organized by Brother MacDonald and is making good progress. Brother MacDonald, who commenced duties as disciplinarian last September, has been a great asset to the school, and there has been only one occasion of truancy since last September. The morale amongst the boys was very low during 1943-44 and a number of boys were expelled in June, so that I consider Brother

Brother MacDonald has done a wonderful job considering the bad feeling amongst the boys which had to be overcome.

I enclose herewith Mr. Indian Agent Christie's letter of August 25th and quotation from Smedley and Sharp, Ltd., of Williams Lake, covering manual training tools and equipment required for the Cariboo Indian Residential School at a cost of $226.61.

Although no specific provision was made in the estimates for this expenditure, no large quantities of manual training equipment have been supplied to this school recently and it is considered that the items are necessary. If funds are available from the B.C. Special Vote, it is recommended that authority be granted for the purchase from Smedley and Sharp.

Williams Lake, B. C.
October 15, 1946.

The Secretary, Department of Mines & Resources, Indian Affairs Branch, OTTAWA.

Recently the Rev. Father Morris, Principal of the Cariboo Indian Residnetial School was discussing Manual training and advised me that he wished to get text books on the following subjects:-

Department of Mines & Resources
Indian Affairs Branch
OCT 21 1946
REGISTERED

1. Woodworking
2. Poultry
3. Sewing
4. Dairying
5. Metal Work
6. Leatherwork.

It is presumed that the Department has a preference in the text book to be used in conjuction with the credit card system now in use for these subjects.

Will you kindly advise me of the title of suitable text books for these subjects as soon as possible and send a copy of each listed above to the Principal of the Cariboo Indian Residential School.

Mr. W. Christie, Indian Agent, Williams Lake, B.C.

Your letter of October 15th was on my desk on my return from an extensive trip. I am sorry that this has been outstanding for some time, however, the delay was unavoidable.

The books for this work are sent from our Stationery Office. However, a number of the recommended books have been sent to the Principal. The following titles were sent to the Principal in February, 1945:

| | | |
|---|---|---|
| 1 | copy | Machine Shop Practice |
| 1 | " | Cold Metal Working |
| 1 | " | Hand Woodworking |
| 1 | " | Woodworking for Junior High Schools |

Williams Lake, B. C.
December 3, 1946.

The Secretary, Department of Mines & Resources, Indian Affairs Branch, OTTAWA.

Enclosed herewith are Vouchers No. 356 and 357 payment for three Treadle Singer Sewing Machines, and freight on same paid by the Principal of the Cariboo Indian Residential School.

It is noted that a Purchase Order was issued for these machines and the bill is made out to the Principal of the Cariboo Indian Residential School. I am not at all clear as to whether the school is expected to pay for these machines or the Department, since I did not receive a copy of the Purchase Order.

Father Morriss is not clear about the matter either, so meanwhile, I am forwarding the vouchers for payment of these accounts.

Ottawa, March 5th, 1947.

Mr. Wm. Christie, Indian Agent,
Williams Lake, B.C.

With reference to your letter of the 26th ult., the Department approves the purchase of the articles shown on the attached requisition for use at the manual training class at Cariboo Residential School. It is noted that the cost of the supplies will be $67.70 and the account should be forwarded before the end of the current month so that it may be paid from the current year's appropriation for the fiscal year 1946-47.

Bernard F. Neary
Supt. of Welfare & Training.
