Ce document a été compilé et perfectionné en 2021 par Benjamin Farmer Lacombe et Jackson Pind, sous la supervision de Theodore Christou, à la faculté d'éducation de l'Université Queen's, dans le but d'améliorer l'accessibilité. Pour utiliser les dossiers à d'autres fins que la recherche et l'étude personnelle, veuillez contacter Bibliothèque et Archives Canada.

Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

A7 P.C. 4844

[illegible]rtified to be a true copy of a Minute of a Meeting of the

ivy Committee of the Privy Council, approved by His Excellency
ncil
nada. the Governor General on the 26 November, 1947.

The Committee of the Privy Council have had before them a report dated 13th November, 1947, from the Acting Minister of Mines and Resources, stating:

That under Vote 181 of the 1947-48 estimates of the Department of Mines and Resources, funds have been provided for repairs and replacements to the domestic hot and cold water system now installed in the Indian Residential School, at Shubenacadie, N.S.;

That tenders were [illegible]nvited, on the basis of drawings and specifications prepared [illegible]y the Department, by an engineer of the Engineering and Construction Service of the Department;

That bona-fide lump sum tenders were received from the parties and for amounts as follows:-

W.J. Christie, Esq., Truro, N.S.	$7,250.00
Roscoe Schofield, Esq., White Rock, N.S.	8,007.00
Edwin H. Campbell, Esq., Truro, N.S.	8,132.59
J.A. Moulton, Esq., 13 Clifton,St., Halifax, N.S.	8,900.00
J.D. Barrett, Esq., Truro, N.S.	10,546.46

That the tenders were analyzed and found to be in accordance with the drawings, specifications and tendering [illegible]ocuments prepared by the Department;

That with provision for contingencies and supervision the acceptance of the lowest tender would entail an approximate total expenditure of $8,000.

As the work is considered to be of an emergency character, the Minister recommends that he be authorized to accept the lowest tender, as submitted by W.J. Christie, Esq., Plumbing and Heating Contractor of Truro, N.S., and to enter into a contract with him for the repairs and replacements required, in accordance with drawings and specifications prepared by the Department, and the Contractor's tender of $7,250 which, with provision for contingencies and supervision will entail a total expenditure of funds to the approximate amount of $8,000, the said expenditure to be met from the appropriate Votes of the Indian Affairs Branch, Department of Mines and Resources.

The Committee concur in the foregoing recommendation and submit the same for approval.

'Sgd.' A.D.P. Heeney.

Clerk of the Privy Council.

The Honourable
The Minister of Mines and Resources.

Mr. Mills:

Re: Indian Residential School,
Shubenacadie Indian Agency, N.S.

I am attaching a copy of Order in Council P. C. 4044, dated 26th November, 1947, which authorizes the acceptance of the tender of Mr. W. J. Christie, and to enter into a contract with him for repairs and replacements to the above school, for a lump sum of $7,250.00. The authority of Council also provides for contingencies and supervision. Will you please take the necessary action. Incidentally I would refer to your memorandum of the 13th instant to which we agree that a security deposit to the amount of ten per cent of the tender price should be secured from the contractor.

Ottawa, December 19, 1947.

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: Indian Residential School, Shubenacadie, N.S.

You recently forwarded to this office a copy of your memorandum of December 4th to Mr. Mills with reference to P.C. 4644 dated November 26th, 1947, authorizing acceptance of the tender of W.J. Christie for $7,250. for repairs and replacements at the above school.

Mr. Morris, Acting Inspector of Indian Agencies, has just returned from Nova Scotia and he was informed recently that the contractor is having difficulty in obtaining the materials he requires to carry out the work and consequently does not expect to start until some time in March. We are extremely anxious to have the work at the Shubenacadie Residential School completed at the earliest possible date, not only because the repairs are urgently required but the funds for the work are included in the current year's appropriation.

We would appreciate it very much if your Branch could give some assistance to the contractor in securing materials so that the necessary work may be completed before the end of March, 1948.

Bernard F. Neary
Supt. of Welfare & Training.

Records to file

January 5, 1948.

Dear Mr. Scully:-

In our main estimates for the fiscal year 1948-49, we are requesting funds in connection with resurfacing the exterior of the Shubenacadie Indian Residential School and also for connecting the Fort Alexander Indian Residential School with the Manitoba Hydro line.

Both of these projects appear under the heading "Repairs to Buildings" in our estimates, but as they will have to be carried out under contract, I thought it advisable to enclose schedule for each of them.

Yours sincerely,

Deputy Minister.

V.M. Scully, Esq.,
Deputy Minister,
Department of Reconstruction
and Supply,

ADDRESS REPLY TO ENGINEERING AND CONSTRUCTION Division

DEPARTMENT OF MINES AND RESOURCES

Lands and Development Services Branch

January 9, 1948.

Department of Mines and Resources Indian Affairs Branch OTTAWA
JAN 12 1948
REGISTERED

Memorandum

Re: Indian Residential School,
Shubenacadie, Nova Scotia.

With reference to your notation dated the 23rd ultimo on the memorandum dated December 19th from Col. Neary of the Indian Affairs Branch relative to the above, it was assumed that a telephone conversation between Mr. Sinclair and our Mr. Buck covered the points raised.

Confirming what was said at that time, you are advised that there are no restrictions in effect on any materials the contractor is obligated to use in his work on the contract, and this Division can be of no assistance in expediting delivery of materials in short supply, for execution of a lump sum contract.

Our engineer who dealt with the matter when the contract was awarded contacted Christie before his return to Ottawa from Nova Scotia. From his analysis of the contractor's remarks Mr. Ross formed the opinion that the material situation has improved, and that no serious delay in obtaining materials is likely to occur.

Mr. Hoey

For your information. It would appear that the contractor is now having more success in the way of securing the required materials. You will appreciate that in cases like this when priorities are off that it is pretty well up to the contractor to look after the securing of supplies.

Chief Engineer.

R.A. Gibson, Esq.,
Director,
Lands and Development Services Branch,

Mr. H.C. Rice, Indian Agent,
Shubenacadie, N.S.

When Mr. Morris was in Ottawa recently he advised that he had been informed that the contractor who was doing the work at the Shubenacadie Residential School was having difficulty in securing needed materials.

We took up the matter with the Director of Lands and Development Services with a view to ascertaining if any assistance could be given to the contractor in securing materials. For your information I enclose a copy of his reply.

Re: Repairs to Water System -
Shubenacadie Residential School.

Write & Wire

Reference to your letter of January 21st last respecting the captionally subject.

W. J. CHRISTIE & Company, TRURO, N. S., will not be commencing on this project before February 1st next. The scarcity of suitable material in this area has been the hold-up. Mr. CHRISTIE informed me this date that he will endeavour to start the repairs in question on or about February 2nd, 1948.

From time to time as the work progresses brief reports will be submitted.

H. C. Rice.

(H. C. RICE) Indian Agent.

Mr. H.C. Rice, Superintendent,
Indian Agency, Shubenacadie, N.S.

In your letter of January 26th you stated that you expected W.J. Christie & Company to begin repairs to the water system at the Shubenacadie Residential School about February 1st.

Since that time we have received no report from you. Please let me know on what date the firm commenced work and what progress they are making. As you know, the end of the fiscal year is rapidly approaching and funds for these repairs are provided in the current year's appropriation.

Bernard F. Neary
Superintendent of Education.

Re: W. J. Christie & Company,
Plumbing - Residential School,
SHUBENACADIE, N. S.

Further to previous correspondence and reference to your letter of March 8th last respecting the captionally noted subject.

Mr. Christie advises this date that he is still held up for some of the larger plumbing fittings. He has all the small pipe and fittings cut and ready to install and he has intimated that he will commence installation of these on Monday next.

He was advised of the urgency of getting this job completed before the end of the present fiscal year and he will do his best to have as much as possible completed by March 31st, 1948.

A further report will reach by the M/N.,

Diary Date.

D.D.22/3/48.

(H. C. RICE) Superintendent,

Re: Indian Residential School,
SHUBENACADIE, Nova Scotia.

Further to previous correspondence and reference to your letter of March 30th last respecting plumbing at the captionally noted Residential School.

Mr. CHRISTIE commenced the work here on Thursday, April 8th, 1948. His work so far has been confined to the Boiler Room, but he is held up still for 3" couplings. All small pipe and fittings are cut and ready for installation. It is understood that he will continue to instal these items. How long a hold up there is going to be over these 3" fittings is not known, but Mr. CHRISTIE is doing everything in his power to obtain them.

A further progress report will follow.

MEMORANDUM

Re: Shubenacadie Indian Residential School.
Shubenacadie, Nova Scotia.

Further to our memorandum of January 9, 1948, you are advised that we are in receipt of a letter from H.C. Rice, Superintendent of the Shubenacadie Indian Agency, with reference to the progress of the work at the above.

Mr. Rice states that Mr. Christie the Contractor, started work on April 8th and that all small pipe and fittings are cut and on the job. He also stated that the only supplies not yet obtained, are several 3" couplings which are needed to complete piping connections at the indirect heater. Mr. Rice advises that the Contractor is doing everything possible to obtain these couplings.

We see no reason why the work should not be carried out to completion without further delay. Mr. Rice states that he will forward additional progress reports.

Upon receipt of same, you will be further advised.

Memorandum:

DIRECTOR, LANDS AND DEVELOPMENT SERVICES BRANCH

Shubenacadie Indian Residential School

As previously recommended upon your Engineer's report, an amount of $17,500.00 has been included in our Main 1948-49 Estimates for the water-proofing of the main building at the above Residential School. It is requested that steps be taken to have a contract let for this work now so that it can be carried out during the months of July and August.

As most of this work will be on the exterior of the school, arrangements can be made, if necessary, to have this work done earlier than indicated above but our preference is for the summer holidays. It is presumed that we will be hearing further from you in this regard.

Practical Formulas for Chopped Meats

The following pages introduce a variety of tried and proven chopped meat formulas that will provide additional profit to the meat retailer, and which can be prepared from various meat cuts and ends, and trimmings. It is not suggested that the retail meat dealer merchandise at one time all the different chopped meat items in this book. It would be more satisfactory to select a few formulas in line with the meats that are moving slowly and from accumulated trimmings on hand.

Every formula should be tried out from time to time and the retailer can then concentrate on the ones that prove the most popular with the trade served.

It is important to keep in mind that a profitable volume of business cannot be built up permanently, unless the buying public receives fresh, wholesome meat. Trimmings should be used only when fresh, and should not be allowed to accumulate or they may become tainted or discolored. An excellent idea to follow is every morning, or at least once each day, check the refrigerator and then plan chopped meat sales according to the cuts on hand that are available for that purpose.

The cost price of chopped meat, ready for sale, depends upon the quality of meat used, the amount of fat, and whether or not binders, seasoning, ice and water are used. The cost price should be determined at the time of making, taking into consideration the value or replacement cost of all materials used.

The formulas in this book are generally given in amounts up to 100 pounds of meat. These can be increased or decreased according to sales volume. Seasoning and binders should, of course, be used in proportion.

Where the less tender cuts, or combinations of different kinds of meat are used, best results and a more uniformly blended product will usually be obtained by chopping through the coarse plate first, then mixing thoroughly, and rechopping through the fine plate.

BINDERS

Binders (cereals or fillers) are used to bind or hold chopped meats together, and when used, enough cold water should be added to make mixing easy. They also hold the natural juices of the meat and absorb moisture. The addition of a binder improves the texture of chopped meat, making it compact yet smooth.

The principal binders in use are soya bean flour, corn flour, rice flour, potato flour, dry skim milk, crackers, dry bread, and blends of these and similar materials.

The amount of binder per 100 pounds of meat averages about 3% and is governed by state regulations.

In certain localities the use of binders is prohibited unless there is a poster displayed which reads, "sausage with cereal added." There are also weights and measures laws which govern the sale of food. In some localities, for example, it is not permissible to sell any meat by the piece; it must be sold by the pound.

Every merchant should be familiar with all such laws and regulations and operate strictly in conformance with them.

FORMULAS FOR SPECIALTIES

In addition to display in bulk, chopped meats today are in increasing demand in "specialty" forms, such as loaves, rosettes, and patties.

CHOPPED BEEF ROSETTES

Chopped beef rosettes are made from lean chopped beef with the aid of a transparent tumbler or tea cup of a size that will hold about ¼ pound of meat. The meat is first chopped through the coarse plate. The fine plate is used for the second run to make the rosettes.

Dear Mr. Phelan:-

Your letter asking for further information regarding the meat grinder, I shall reply to at once.

Mr. Harold Reid, of this town, has a grinder, bought June 25, 1947, for $310.00 from the Canadian Toledo Scale Company, of Toronto. Mr. Reid would sell this to us for $250.00

Should you decide not to take this offer, I think the heavy duty size of the enclosed Model 212 would be most acceptable.

Our gratitude for your continued interest exceeds even the need of a grinder, which is great.

Yours very truly,

Sister Mary Charles.

Memorandum

Re: Shubenacadie Indian Residential School
Shubenacadie, N.S.

With reference to your notation on a memorandum dated April 27th from the Director Indian Affairs Branch, it is noted an amount of $17,500 has been included in the Main 1948-49 Estimates for the water-proofing of the above building, and that Mr. Hoey would like to have the work carried out during the summer holidays.

During the fall of 1946 this office contacted the firm of Creaghan and Archibald Limited, Engineers and Contractors, Montreal, who have an office in Halifax, N.S., and after an inspection of the above building, submitted a report with a proposal and lump sum prices for carrying out the work.

Upon receipt of Mr. Hoey's memorandum, Creaghan and Archibald Limited were again written to and we are now in receipt of advice that their original proposal holds with the exception of the following:

1. Due to advanced costs their price at this time would be $15,065.00 instead of $13,100.00.

2. If the base coat of cement and sand is to be applied under pressure by the use of a gunite machine, the extra price at this time would be $1610.00 instead of an extra of $1400.00 previously quoted.

It is recommended that we be authorized to engage the firm of Creaghan and Archibald Limited to carry out the work of water-proofing of the exterior walls of the school, exclusive of stuccoed passageway, having the material applied under pressure. Adding the above figures their quoted price for doing this work by this method is now $16,675.00.

We are of the opinion that no purpose would be served by advertising this work as the firm mentioned above specialize in water-proofing buildings and other similar work and as far as we are aware, are the only firm in a position to do the required work at Shubenacadie.

DIRECTOR, LANDS & DEVELOPMENT SERVICES BRANCH

Re: Shubenacadie Indian Residential School,
Shubenacadie, N.S.

We have received your memorandum of May 31st, file IA 1156-4-2, with reference to water proofing the above mentioned building. It is noted that you have a quotation of $16,675.00 from Creaghan and Archibald Limited.

We approve you making arrangements with the above named firm to carry out the work at the price stated.

Director.

PRIVY COUNCIL

CANADA

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 29 JUNE 1948

Dept. of Mines & Resources OTTAWA JUL 2 1948 DEPUTY MINISTER

The Committee of the Privy Council have had before them a report dated 21st June, 1948, from the Minister of Mines and Resources, representing:

That in the 1948-49 estimates of the Indian Affairs Branch, Department of Mines and Resources, funds have been provided to carry out extensive waterproofing repairs to the existing Indian Residential School at Shubenacadie, Nova Scotia, where, due to the effect of driving Atlantic storms, moisture is penetrating the exterior masonry walls of the building;

That the serious damage resulting from the said moisture penetration is cumulative, requiring immediate remedial action which could be taken to greatest advantage during the summer vacation period;

That the Lands and Development Services Branch of the Department of Mines and Resources have carried out investigations through which it has been established that the firm of Croughan and Archibald Limited, 1440 St. Catherine St. W., Montreal, is a reputable firm of building waterproofing specialists, who have carried out a large amount of similar work in the Maritime Provinces with success;

Dept. of Mines & Resources OTTAWA JUL 7 1948 REGISTRY BRANCH RECEIVED

That the said firm:-

(a) is equipped and staffed to carry out the work required without delay;

(b) have examined the building and have submitted a proposal to carry out complete exterior waterproofing and guarantee their work for a total cost of Sixteen Thousand Six Hundred and Seventy-five Dollars ($16,675.00);

That the cost quoted in the said proposal is fair and just; that in view of the urgency of the work, it is considered to be in the public interest to avoid the delay that would be occasioned by the invitation of competitive tenders;

That the acceptance of the said proposal after making provision for contingencies and supervision would involve an expenditure of approximately Seventeen Thousand Five Hundred Dollars ($17,500.00).

The Committee, therefore, on the recommendation of the Minister of Mines and Resources, advise that authority be granted to accept the proposal of Croughan and Archibald Limited, and to enter into an arrangement with the said firm to carry out complete

Re: INDIAN RESIDENTIAL SCHOOL,
Shubenacadie, N. S.

The house occupied by the Resident Farmer at the captionally noted School is urgently in need of the following repairs:-

(1) Complete renewal of roof shingles.
(2) Building of new flue.

It will also be necessary to replace some rough boards and rafters in this house. It is estimated that the total cost will amount to $500.00. The lumber in connection with this repair can be supplied from the Agency Saw Mill, the account being credited to the 1948-49 Welfare Vote.

Rev. J. W. Brown, Principal, also advises that the Root Cellar is in need of a new roof. It was suggested by him that a metal roof would be most satisfactory. However, Sheet Metal Roofing is still in short supply, although there is an aluminium roofing on the market at the present time that is highly recommended. The Galvenised Sheet Metal Roofing if obtainable is listed sightly under $8.00 per square and the aluminium is listed at $12.00 per square.

Should it be the desire of the Branch to use wooden shingles on the Root Cellar, we have an excellent spruce shingle manufactured in the Agency Saw Mill which would be quite suitable. This account could also be

Re: Main Sewage-Pipe,
Indian Residential School,
SHUBENACADIE, N. S.

I have been informed by the Principal of the above noted school that the main-sewage pipe leading from the school to the Shubenacadie River has an obstruction and refuse is now packed up into the main school block. It is understood that the obstruction is located approximately 10 feet from the side of the building where all the sewer lines from building enter into the main line running into the River. Some trouble has been experienced in the past at the point and it is felt that the only solution [redacted] is to construct a manhole at this point which would eliminate the necessity of any "Y"s and "T"s.

It is proposed to construct this manhole of either concrete or brick and it is requested that the necessary authority be granted to proceed with this work at your earliest convenience.

MEMORANDUM

Re: Waterproofing of Exterior Walls,
Indian Residential School.
Shubenacadie Indian Agency, Nova Scotia.

Replying to your marginal notation of August 13th on Mr. Hoey's memorandum to you under date of the 12th instant, you are advised that we were advised by the contractors on the 16th instant, that operations would continue for another ten weeks. This would bring the date of completion by Messrs Creaghan and Archibald, to approximately October 25th, next.

Mr. Hoey - For your information.

Colonel B. F. Neary,
Superintendent Training,
Indian Affairs Branch,
Booth Building, Ottawa.

Re: Dishwashing Machine for Shubenacadie School

Dear Colonel Neary:

Confirming our telephone conversation, I wish to say that a small dishwasher would be of great benefit to this school. The actual number of persons in residence is possibly a little bit smaller than normally leads us to recommend such equipment, but from my observation of the work, I am convinced that it is not being satisfactorily done owing to the fact that the school has a larger number of smaller pupils than is usually the case.

Yours sincerely,

L. B. Pett, Ph.D., M.D.,
Chief, Nutrition Division.

Re: Shubenacadie Indian Residential School

We are in receipt of your letter of November 25th enclosing letter of the same date from Rt. Rev. J.P. Mackey, Principal of the above school, with reference to the financial situation.

Careful consideration has been given to the contents of both letters.

While we appreciate careful management, at the same time we feel that funds accumulated are intended to be used at a subsequent date for expenditures that would improve conditions for the pupils and thatare not ordinarily provided by the Department.

During the war years when our appropriations were reduced, it was necessary to expect schools which had a surplus from previous years to use the funds for expenditures that possibly would have been supplied by the Department in ordinary years.

Mr. Phelan expects to be in Shubenacadie next week and will be prepared to discuss the whole situation further with Msgr. Mackey and yourself. He will bring the accounts with him.

Re: Indian Residential School,
SHUBENACADIE, N. S.

During the recent visit of Dr. H. L. KEENLEYSIDE, Deputy Minister of Mines & Resources, the situation at the captionally noted School was brought to his attention by the Principal, Rt. Rev. J. P. Mackey and myself.

In our informal discussion the whole financial situation was brought to light, and in particular the matter of repairs to the building that was effected by using the School money. Dr. KEENLEYSIDE requested that a detailed account be submitted to you and a copy of the letter forwarded to him, in order that his memory be refreshed. This is being done and I would strongly recommend that if at all possible the School be re-imbursed for the major repairs and replacements which were made by using School funds.

When the attached receipts have served their purpose kindly return same for the Residential School records.

(H. C. RICE) Superintendent,
Shubenacadie Indian Agency.

Dear Mr. Rice:

I have for acknowledgment your letter of November 25th, enclosing copy of a letter from The Right Reverend J. P. Mackey, Principal of the Shubenacadie Indian Residential School, to Colonel Neary, Superintendent of Education, regarding the financial position of the Shubenacadie School, a matter which was discussed with Monsignor Mackey and yourself during my recent visit to your Superintendency.

The subject has been discussed with the officials of the Indian Affairs Branch since my return and a reply has been made by Colonel Neary to your letter to him of November 25th. You will also be interested to know that Mr. Philip Phelan, of the Education Division, is en route to Nova Scotia and will discuss the whole situation with Monsignor Mackey and yourself at Shubenacadie.

Yours sincerely,

Deputy Minister.

H. C. Rice, Esq.,

MEMORANDUM

Ottawa. December 6, 1948.

Re: Shubenacadie Indian Residential School.

An inspection was recently carried out at the above school in connection with the completion of two contracts. Our inspecting officer furnishes comment on both contracts as follows:-

(a) Domestic Hot and Cold Water Revisions -

Our officer met Mr. W.J. Christie, Plumbing and Heating Contractor, who has completed revisions and additions to the Domestic hot and Cold Water System at the school, and the work was carefully examined.

The installation has been carried out in a most satisfactory and workmanlike manner, and in accordance with the plans and specifications prepared by this Division; and to the satisfaction of the school authorities and Indian Superintendent H.C. Rice.

Under the circumstances, we have accepted the work, and are returning the security deposit to the Contractor.

(b) Waterproofing Contract -

While our officer was in Shubenacadie, he inspected the waterproofing work carried out by Messrs. Creaghan and Archibald. Their Halifax representative Mr. Peitkin, under whose supervision this work was executed, reviewed all phases of the work with our officer, and explained, in detail, how the various operations included in the contract, were carried out.

The caulking around the window and door frames was carefully examined, and appeared to have been well done. The finish over the entire wall surface was put on under pressure, and it is evident that no pains were spared to make a thoroughly good job.

The colour is a medium grey, and some areas are slightly darker than the main surface. It was explained that this was due to varying weather conditions at the time the finish was being applied. The opinion was expressed, by Mr. Peitkin, that the weathering effect will ultimately result in a solid colour throughout. While the general appearance of the building is quite different from its original colour, it is not unpleasant.

Several severe rainstorms have occurred since this was completed, and there has been no evidence of any filtration of water through the walls. The Principal and Indian Superintendent H.C. Rice, both, expressed complete satisfaction, Under the circumstances, the work has been accepted and we are releasing the Contractor's security deposit.

Re: Indian Residential School,
Shubenacadie, N. S.

As you are no doubt aware, the firm of Creighton and Archibald, 1440 St. Catherine Street, West Montreal, P. Q., has recently completed a water proofing job on the captionally noted school.

During the last thirty-six hours we have had a very heavy rain accompanied with gales of wind force and as a result we find that the weather proofing job as performed by this Company is definitely not satisfactory. Along the whole western front of the building, numerous leaks appeared and it is felt that the remainder of the building is possibly in the same condition. The following telegram was dispatched to the firm in question:-

" Indian Residential School, Shubenacadie, N. S. which your firm has recently completed water proofing leaking very badly and your immediate attention is requested."

Although we have not got the contract entered into with this Company, it is felt that this is a guaranteed job for a period of five to ten years.

Re: Indian Residential School,
Shubenacadie, N. S.

Reference to the weather proofing job recently completed at the captionally noted school and further to my letter of recent date respecting same.

On Sunday last, a Representative of the firm of Creighton & Archibald visited the Indian Residential School and went over the whole building. At the time, it was impossible for him to know exactly where the leaks were originating but requested that during the next severe rain storm, he be contacted at his Halifax headquarters at which time he will proceed to Shubenacadie in an effort to trace the leaks.

It should be pointed out that at the time the leaks appeared in this building, we were experiencing one of the worst rain storms in recent years, and it is quite possible that these leaks might not show up again for some time. However, the work is definitely defective to some degree and as it is a guaranteed job for five years we will see that the situation is rectified.

Due to weather conditions during the next few months, it will be impossible to carry on any work of this nature until Spring. However, should we have a severe enough rain to call this Representative, he will mark the leaks in order that his Company can proceed with the necessary alterations in the Spring.

Re: Blanket for the Shubenacadie
Indian Residential School.

I am just in receipt of a letter from Rev. J. P. Mackey, Principal of the above noted school.

Will you kindly advise what action you wish me to take?

In checking over the blankets for the school, I find they are in very bad shape and need replacing. You are aware of the financial standing of this school, and if at all possible this charge could be made direct instead of taking it out of his per capita grant, I would recommend it.

H. C. Rice

(H. C. Rice) Superintendent,
SHUBENACADIE INDIAN AGENCY.

Dept. of Mines and Resources
Indian Affairs Branch
Ottawa, Ontario.

Dear Sir,

Paying a visit to some of the youngsters laid up with chickenpock, gave me an opportunity of inspecting the bed blankets. Needless to say thay have been in use for many years and with washing and wearing they are very thin.

Our financial position being what it is, it is impossible for us to go out and replace these blankets. We understand that Supt. Rice has a large number of blankets from the War Assets.

Would it be possible that he might allow us one hundred and thirty-five, being one for each child? If Supt. Rice is to pay for them, could we have that number at the same price he is to pay for them?

The chickenpock will clear up in a few more days.

Very truly yours,

J. P. Mackey.

Rt. Rev. J. P. Mackey.

(E)

January 28, 1949.

Mr. H. C. Rice,
Superintendent, Indian Agency,
Micmac, Hants Co., Nova Scotia.

We have your letter of the 18th instant regarding the purchase of blankets for the Shubenacadie Residential School.

Blankets are only supplied to Residential Schools when they first open. Replacements have to be made by the school management. We regret that at the present time we cannot make any exception to this rule.

You will no doubt be aware of the circular letter sent to all residential school principals and Indian superintendents concerned, regarding equipment which the Department would and would not purchase for these schools. I would suggest that you check this particular item on the scale.

As you are by now aware, the per capita grant at this school has been increased very considerably, effective 1 January, 1948.

Bernard F. Neary,
Superintendent of Education.

OTTAWA, Ont., Canada.

Re: Indian Residential School,
Shubenacadie, N. S.

In the following paragraphs, we hope to paint a word picture of the present circumstances at the Residential School, and to recall the situation as it was when we left on December 15th, 1943.

The situation at the present time is far from encouraging. We have had the poorest year yet as far as the farm is concerned. We are obliged to buy potatoes, carrots and other vegetables except turnips and beets. We have the least number of children in residence at any time since the school opened; fifty three boys and seventy-five girls, a total of one hundred and twenty-eight. With payment on a per capita basis, we should have a total of one hundred and fifty in order to meet expenses. The spirit of co-operation among the various members of the staff while improving is certainly not what it was in the years preceeding 1944. The amount of supplies from mops and brooms to food and clothing is not what it used to be. At the moment, we have about eight hundred dollars in the current bank account, which will just about pay the salaries of the farmer, assistant farmer, carpenter, engineer and night fireman for November and December. The Sisters of Charity nor the Principal can possibly get any salary till after the first of the year.

Indian Affairs. (RG 10, Volume 6056, file 265-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

In the meantime, things that are absolutely necessary must be bbought and these with already outstanding accounts cannot be met. It is going to be a lean Christmas.

Now let us take a look at the school situation on January 17th, 1944, one month after we left. The balance in the Royal Bank on January 1st, 1944, was $3584.28, and $10,000.00 in Dom. Gov. Bonds. On January 17th, 1944, the per capita grant for the previous quarter was received amounting to $6,641.28, this making a total cash credit of $20,225.86. There were few, if any, unpaid accounts, and if there were, they were for small amounts. By July 5th, 1946, this amount along with the per capita allowance during that time was spent. When we came back on September 1st, 1948 we find about eleven hundred dollars in the bank, and outstanding accounts were in the vicinity of six thousand dollars.

On going over the accounts, we find the following:-

June 26, 1945, Bread slicing or cutting machine, $310.50.

July 16, 1945, Brantford roofing for barn repairs, $349.07

August 16, 1945. I. Matheson & Co. Boiler for laundry, $590.00

Sept. 22, 1945, I. Matheson & Co. Boiler for dairy, $375.00.

Nov. 13, 1945, Can. Fairbank Morse, pumps, $1173.50

Jan. 10, 1946, James Donahue, roofing, $3,864.00.

Jan. 11, 1946, Fairbanks Morse, $649.98.

July 16, 1946, James Donahue, roofing, $3,749.00.

June 28, 1948, DeLaval Company, milking machine, $135.60 with $109.00 every six months with interest at 6% for the next 18 months. Total $462.60.

Indian Affairs. (RG 10, Volume 6056, file 265-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

Under normal circumstances and the co-operation which existed between the principal of the school and members of the Department at Ottawa, prior to 1944, all of these items would have been taken as major repairs and replacements, and would have been paid for by the Department.

The ten thousand dollars which we had saved was intended for certain definite expenditures when the war was over. We find now that on,

Jan. 2/46, five thousand dollar bond was sold for $5198.83,
Mar.23/46, one thousand dollar bond was sold for $1051.66,
July 5/46, the remaining four thousand were sold for $4437.13.

Within seven months all the bonds were sold, to meet the expenses incurred. From there on, very little was spent for upkeep or repairs. There was a letter from the Department advising the sale of three thousand of the bonds, but by that time, all the bonds had been sold.

No doubt much of this expenditure was incurred without the approval of the Department; but most of it would have been necessary within a year or so. The time limit or guarantee of the roofing on the school was for fifteen years, and that time had elapsed. Possibly three or four hundred dollars in repairs would have extended the life of it for a few years. The same would apply to the pumps, and boilers. Within the past month, the Department has supplied the school with a potato peeler but the bread slicing machine was something even more useful.

Indian Affairs. (RG 10, Volume 6056, file 265-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

POOR COPY

In the matter of salaries, the farmer and carpenter-engineer have had their salaries increased from $90.00 to $120.00 per month; the assistant farmer from $80.00 to $100.00 per month. The Sisters of Charity are getting the same salary of $25.00 per month which they received back in 1930. When we think that young women from displaced persons camps in Germany, when they come to this country and work as domestics, are given at least $35.00 a month together with decent living quarters, the matter of the salaries paid to the Sisters does not seem fair. We do not mean to infer for one moment that this is directly the fault of the Department, but they way things are now we cannot bring their salaries up to what they should be. The salry of the principal is $125.00 per month.

What we would like to know is, is there any way in which these particular expenditures could be reconsidered and the school reimbursed for the moneys spent on major repairs and major replacements. Under present circumstances, we do not see how we can possibly go on.

Trusting that you will give this matter serious consideration, I am,

Yours very truly,

J. P. Mackey.

Rt. Rev. J. P. Mackey,
Principal, Residential School.

Enclosed please find invoices covering the particular expenditures.

A. G. Lee.

Re: Radio License,
Indian Day School,
Micmac, N. S.

During the recent visit of Mr. Phalen to this Agency, he authorized the purchase of a combination radio and phonograph for use at the Indian Day School, Micmac, N.S. and the Indian Residential School, Shubenacadie, N.S.

In compliance with his instructions, two suitable General Electric Units were obtained for use in the schools in question.

Would you kindly forward the necessary operation permits for these machines?

(Sgd) H. C. Rice, Superintendent,
Shubenacadie Indian Agency.

Re: Indian Residential School,
SHUBENACADIE, N. S.

Further to previous correspondence respecting blankets for the captionally noted school.

Rt. Rev. J. P. Mackey, Principal, has requested permission to purchase 135 blankets from this Agency, delivery to be taken from stock on hand which were purchased under authority of Purchase Order #36008. The unit price in this instance is $2.86.

It can be appreciated that Monseigneur Mackey, due to the present financial circumstances, will not be able to obtain blankets on the open market at anywhere near the price quoted here.

It is understood that the need for blankets at the Indian Residential School is very urgent and Monseigneur Mackey would be greatly assisted in his endeavour to place this school in a favourable financial position if his request in this instance were granted.

May we have your comments, please.

H. C. RICE, Superintendent,
Shubenacadie Indian Agency.

Your letter of February 7th requesting authority to transfer 135 blankets from Agency stock to the Rt. Rev. J. P. Mackey, Principal of the Indian Residential School, has been received.

In view of the fact that the Rev. Mackey has been informed that we have blankets in our warehouse, the transfer is authorized. When transfer has been completed, please forward remittance covering the sale of these blankets at $2.86, the amount paid under authority of Purchase Order #36008. This remittance should reach the Branch at the earliest possible date.

It is pointed out that in the future you must not inform any outsider as to materials that are shipped to our warehouse, or may be stored there.

Dear Sir,

One of the horses has become useless, and as soon as we can find some one to buy her for fox meat we shall let her go. She is an old mare and can just about carry her own weight, she has a bad case of heaves.

It comes to this; either buy a new horse or a mower which can be attached to the tractor for the haying season. We think the better thing to do would be to purchase the mower. One would cost just as much as the other.

The mower we have in mind is a McCormick-Deering No. 21, new mower, with seven foot cutter bar, and power take-off to fit the present McCormick Deering Tractor. This machine landed here would cost two hundred twenty-one dollars ($221.00). The local agent is Mr. A. J. Sheehan.

We have not a cut of this machine but a catalogue showing it will be sent to the Department in care of Mr. Bernard Neary showing all details. The catalogue should come from the Agent in Ottawa or from the plant in Hamilton.

If the Department will purchase this machine for us, we would like to be sure and have it on hand for the first week in July. By the way things look now the hay will be ready to cut at that time.

There are many such machines in this locality and they have proven very satisfactory.

Please let us know as soon as you can what are the views of the Department concerning the purchase of this machine.

Very truly yours,

J. P. Mackey.

Rt. Rev. J.P. Mackey.

June 10 1949

To The Departmental Purchasing Agent, Ottawa,

This space for use of Head Office only

Requisition No. .....

Order No. .....

Please furnish the following Supplies for use of Shubenacadie Residential School #265

Vote 516 Primary 12 Object 419 Date Required 1 July 1949

Ship to Rt.Rev. Msgr. J.P. Mackey, Principal, Shubenacadie Indian Residential School, Shubenacadie, N.S.

Mail Invoices to Mr. H.C. Rice, Superintendent, Indian Agency, Micmac, Hants Co., N.S.

Purpose for which required

Quantity		Unit Price	TOTAL
1	only McCormick-Deering #21 mower with 7' cutter bar and power take-off to fit present McCormick-Deering Tractor.		
	NOTE: Shubenacadie Indian Residential School comes under the direct control of the Indian Affairs Branch. One of the work horses at this school is so old that it is useless for work. Instead of buying a new horse the Principal considers that it will be preferable to purchase a mower which can be attached to the tractor at the school for the haying season. In the case of the Shubenacadie School we feel that the Department would be justified in purchasing the mower requested. The Principal states that the machine mentioned above could be secured f.o.b. Shubenacadie for an amount of $221.00 from local agent Mr. Sheehan. Principal wishes the machine to be at the school for the first week in July, as it is likely that hay cutting will commence at that time. It would, therefore, be appreciated if you would give the Purchase of this machine your immediate attention.		

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Memorandum:

SUPERINTENDENT OF INDIAN EDUCATION

Re: Schubenacadie Indian Residential School.

The Schubenacadie Residential School has an enrolment of 158 children. The junior division have 68 children in the classroom; the intermediate 35 and the senior 55. It will be necessary to operate a fourth classroom. There is space available. A room originally intended for a classroom is being used as storage and for the pottery. This room which is identical to one of the classrooms would be, after a general clean-up, very suitable. I would suggest that the principal submit estimates for the preparation of this room.

There is no workshop and no space available for one. It will be necessary to build a separate building that would serve as a workshop, (general shop and pottery) and also provide storage space. The principal should obtain estimates for a building that would supply his needs.

Respectfully submitted,

A. J. Doucet,
Supervisor, Vocational Education.

June 16th, 1949.

Rt. Rev. J.P. Mackey,
Principal,
Indian Residential School,
Shubenacadie, Nova Scotia.

Dear Msgr. Mackey:

On his return to Ottawa, Mr. Doucet reported that the room that has formerly been used for storage purposes will be required as a classroom during the academic year 1949-50. Please let us know as soon as possible what it will cost to clean this room so that it will be suitable for classroom purposes.

If additional desks are required, you should forward a requisition. As you know, we now supply single chair desks, and these are made in three sizes, large, medium and small.

If it is possible to erect a workshop at a reasonable cost, we are hopeful of being able to secure the necessary funds. It would, therefore, be appreciated if you would make some enquiries and advise us as soon as possible the total expenditure that you consider would be necessary to provide a workshop. When replying, you should state the size of the building which you consider is necessary.

Sincerely yours,

Philip Phelan,
Chief, Education Division

Memorandum:

DIRECTOR,
LANDS and DEVELOPMENT SERVICES BRANCH

The following letter has just been received from Superintendent Rice and is self-explanatory.

"The water proofing of the captionally noted school was completed last November by the firm of Creghan & Archibald, Montreal, P.Q., at a cost of $16,675.00. At the time the work was completed it appeared that a perfect water proofing job had been done. However, during the past winter, numerous cracks have appeared in the side walls, and underneath some of the windows and near grade the water proofing material has raised from the brick surface. Also on one occasion when there is a rain accompanied by high winds, the building has leaked through the exposed windows almost as bad as it did prior to the water proofing.

A representative of the Water Proofing Company has visited the school and he advised that he will bring the matter up with his head office. However, it is strongly recommended that a representation be made immediately to the firm of Creghan and Archibald to have the necessary repairs effected. It is understood that the water proofing job carries a ten-year guarantee".

We would appreciate it if you would check up the matter immediately with the firm who water proofed the building.

Re: Water Proofing - Exterior Walls,
Indian Residential School,
Shubenacadie, N. S.

Further to previous correspondence respecting the captionally noted subject.

On Friday, August 19th, this section of the Maritimes was swept by driving rain accompanied by winds of gale force from the north and north-west. The whole northern end of the Indian Residential School not only leaked through the window casings but also through the main wall and gallons of water ran down inside on the first and second floors. In view of the unsatisfactory result obtained from water proofing which was completed last Fall, it is considered unadvisable to proceed with the interior decorating which was authorized in your letter of August 6, 1949.

It is strongly recommended that immediate steps be taken to contact the Firm of Creighan and Archibald, Montreal, P. Q. with the request that steps be taken at the earliest possible date to have the situation at the Residential School completed to the satisfaction of the parties concerned.

Re: Report on Examination of Water,
Indian Residential School,
SHUBENACADIE, Hants Co., N. S.

Attached hereto you will find the Report on Examination of Water conducted by the Nova Scotia Department of Public Health on August 23rd, 1949 which is self explanatory.

It would appear that the water contamination in "Snydes Lake" (Source of the water) has reached the point where an adequate purifier must be installed. The only purifier in the present system is a small strainer to keep eels and other fish from getting into the main line.

Could this matter be referred to the Lands and Development Services Branch please ? Mr. R. R. Ross, who it is understood is now at Perth, N.B., is wholly familiar with this water system, as it was he that supervised the laying of the main water line in 1947.

It would be appreciated if this matter were treated as urgent in view of the fact all drinking water used by the Staff and Pupils must now be hauled some seven miles from the Indian Reserve.

(H. C. RICE) Superintendent,
Shubenacadie Indian Agency.

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: Shubenacadie Indian Residential School, Shubenacadie, N.S.

Enclosed for your information is a copy of a letter dated September 7th received from Superintendent Rice with reference to the water at the above mentioned school.

You will note the suggestion that your Mr. R.R. Ross investigate the matter, and we would appreciate it if you would arrange to have this done at an early date. It appears from the letter that at the present time it is necessary to haul the drinking water some 7 miles inland.

I also enclose a copy of the report on the examination made of the water by the Department of Public Health for the Province of Nova Scotia.

MEMORANDUM

Re: Waterproofing Treatment,
Indian Residential School,
Shubenacadie, Nova Scotia.

With reference to your marginal notation dated the 26th ultimo, asking for a report on the subject matter contained in Major MacKay's memorandum to you of August 26th last, you are advised as follows:-

Indian Superintendent Rice reported early in the spring, that during violent rainstorms, moisture was still penetrating the exterior walls and the matter was drawn to the attention of Messrs Creaghan and Archibald the contractors who replied that they would endeavour to have their Halifax representative visit the building during a rainstorm, to observe and report on the condition.

Our Mr. Ross while in Nova Scotia on other work, visited the school, and reported that the waterproofing material appeared to have been carefully applied but that numerous hairline cracks in the cement were apparent at the corners of the building and at several window openings.

On June 16th last, this information was furnished to Creaghan and Archibald at which time we requested comment, and a copy of the report supposed to have been submitted by their Halifax representative.

Having received no acknowledgment, we again wrote the contractors on August 19th last, informing them that under the terms of their contract whereby they guaranteed their work for 5 years, we expected them to investigate the unsatisfactory condition and proceed with whatever remedial measures that were necessary.

We have attempted today to talk to Messrs Creaghan and Archibald by long-distance telephone, but Mr. Archibald could not be reached. As soon as he can be contacted, you will be further advised.

Ottawa, September 15, 1949.

Dear Sir,

Re: Shubenacadie Indian Residential School, Shubenacadie, N.S.

A request has been received from the Director, Indian Affairs Branch, for an engineer to make an inspection of the water supply for the above school situated approximately one half mile from Shubenacadie, Nova Scotia.

It is understood by, Mr. H.R. Ross, of our Engineering and Construction Division, that you would be willing to have one of your engineers stationed at Moncton, New Brunswick, make this sanitary inspection, and it would be appreciated if you would have this done at an early date.

The source of water for the school is a small lake surrounded by farmland, and a public road from where the water is pumped by pressure tank system without treatment. The Indian Superintendent, Mr. H.C. Rice, is stationed on the Shubenacadie Reserve approximately five miles west from the school, and can be reached by telephone.

A report of examination made of the water dated August 27th, 1949, by the Department of Public Health, Province of Nova Scotia, gives the most probable number of coliform organisms per 100 c.c. of sample as being 8.8. It has been suggested to the Indian Affairs Branch that a series of such examinations be made, if such has not recently been carried out.

Yours truly,

Director.

J.R. Menzies, Esq.,
Chief,
Public Health,
Engineering Division,
Department of National Health & Welfare.

LANDS AND DEVELOPMENT SERVICES BRANCH 6395

MEMORANDUM

OTTAWA, September 15, 1949.

SEP 19 1949
RECORDS
INDIAN

Re: Shubenacadie Indian Residential School, Shubenacadie, N.S.

Reference is made to your notation on a memorandum dated September 10th from the Director, Indian Affairs Branch, requesting that an inspection of the sanitary condition of the water supply of the above school be made at an early date.

The matter has been discussed with, Mr. J.R. Menzies, Chief, Public Health Engineering Division, National Health and Welfare Department, who has offered to have one of his field engineers stationed at Moncton, New Brunswick, make an inspection at the first opportunity. A draft letter for your signature, if satisfactory, is attached asking Mr. Menzies to carry out the examination.

It is understood from the letter sent by Superintendent Rice that the enclosed report on examination of the water by the Department of Public Health for the Province of Nova Scotia, is the most unfavourable of several such examinations that have been made. In order that a decision may be reached regarding the safety of the water, we would like to receive reports covering other samples taken recently, or, if a series of samples have not been taken it is suggested that this be done.

Our engineer Ross states that he recalls seeing two chlorinators in storage at Shubenacadie, which had been salvaged from the Mount Pleasant Airport, while making an inspection last spring. The only one of the two suitable for a small water supply has been reconditioned at the factory for installation on the Tobique Reserve in New Brunswick. It is understood a third chlorinator was salvaged by Indian Affairs at the same time from the Airport, and it is suggested that Mr. Rice be requested to locate this third unit if available for possible use at the Residential School, and let us have a description with factory numbers in case it is decided the water should be chlorinated for safety.

R.A. Campbell,
for Chief, Engineering
and Construction Division.

c.c. Supt. of Education

, October 12, 1949.

H. C. Rice, Esq.,
Superintendent, Indian Agency,
MicMac, Hants County, N.S.

A memorandum has been received from the Superintendent of Education regarding your recent telegram in which you requested cancellation of an order for 300 bags of cement for the Shubenacadie Indian Residential School, stating that you have sufficient cement on hand for this job.

The Superintendent of Education is prepared to reimburse the Welfare Appropriation for the value of the cement used and in order that the necessary financial adjustment between the two Divisions may be made I would request that you submit a voucher in duplicate similar to the sample attached just as soon as you know how many bags of cement will be required for the Residential School. When this voucher is submitted to the Education Division a copy of the same should be forwarded direct to the Welfare Division for purposes of record.

It is presumed that the cement you have on hand was that purchased from the Canada Cement Company in Montreal on Purchase Order No. 42853. If so, this fact should be stated on your voucher covering the transfer. It will be noted that the price charged was $3.29 per barrel (4 bags). The Welfare Division took advantage of the 10¢ per barrel discount offered by the vendors for payment of the account within 20 days from date of shipment and this discount should be passed on to the Education Division in computing the cost of the cement transfer.

H. M. Jones,
Superintendent of Welfare.

MEMORANDUM

Superintendent of Education

Receipt is acknowledged of your memorandum dated October 3rd, file 265-5, regarding utilization of cement purchased by the Welfare Division for the construction of a school at Shubenacadie.

This arrangement is satisfactory to the Welfare Division and I am enclosing a copy of a letter going forward to Mr. H. C. Rice, Indian Superintendent at Shubenacadie, instructing him with respect to accounting procedure.

I would appreciate it if you would advise this office when the adjusting voucher is received in order that we may have a record as soon as conveniently possible of the additional amount of funds available in the Welfare Appropriation.

H. M. Jones,
Superintendent of Welfare.

INDIAN RESIDENTIAL SCHOOL

SHUBENACADIE, N.S.

September 19, 1949.

In reference to the above and your letter of the 14th instant, the area was visited on Friday, the 16th, when in conjunction with Father Mackey and Mr. Rice, Superintendent of the Indian Reserve, conditions were gone into.

Water for the school, farm buildings, and residences is obtained from a lake located about one-quarter mile west of the school, and from which it is pumped to the buildings.

The lake is surrounded by farm lands and is said to be spring feed. A heavy algae growth margins the shore, the depth of water shallow to some 12 to 15 feet at the lower end. Cattle are pastured and watered there, swimming takes place, ice cut in winter, etc., showing that the lake is accessible to the public at all times. A culvert from road ditch leads the water directly to the lake which, however, can be diverted to other side of road draining away from the lake.

The intake is some fifty feet into the lake at a depth of ten feet and supplied with screens. The pump house is located three hundred yards from it, near the stables, dairy, barns, etc., and if connections not water tight might become source of pollution.

Father Mackey stated some months ago that analysis of water showed M.P.N. of 3.7 and latterly 7.7, and is also unpalatable because of certain alkalies.

Deep drilling for water in this area has not proved satisfactory, as salt water is encountered. Shallow wells, this being a dry year, have mostly dried up.

The distance to source of available water is about four miles to the reserve or in other direction to springs.

On account of expense and other difficulties, these supplies are not recommended till further examination, but it is suggested that copper sulphate be used twice a year to free lake from algae, and that a chlo-

rinator be installed.

As the lake lies almost wholly within private property, it would be impossible to prohibit grazing and watering of cattle or to exclude the public.

Analysis of water samples will be followed shortly, as also photoes of area.

Memorandum

5834

Re Shubenacadie Indian Residential School Water Supply

With reference to the report dated September 19, 1949, on the sanitary survey of the above water supply made by the Public Health Engineering Division and referred to this Division from your office, it is noted that a chlorinator installation is suggested. Also suggested is the use of copper sulphate twice a year to free the lake from algae.

The estimated cost of supplying and installing a suitable hypochlorinator for this system is $500.00. If the chlorinator mentioned in the last paragraph of our memorandum of September 15th is available and suitable for this purpose, the cost will, of course, be considerably less. The cost of repairing and replacement of parts for the hypochlorinator salvaged for the Tobique water supply system was approximately $155.00 including freight, which may be considered as an estimate of cost for repair of a similar salvaged hypochlorinator for the Shubenacadie installation. With an allowance for installation the total estimated cost, using a salvaged unit if available and suitable, would be approximately $230.00.

Further action on this matter will be taken on your advice.

A copy of the report on the sanitary survey at Shubenacadie Residential School is enclosed for the information of Indian Affairs.

Gentlemen:

Re: Purchase Order No. 49091

We have received your letter of the 13th instant requesting increase of $0.45 per gallon for the paint supplied on the above order.

I regret that I am not in a position to sanction this increase as this would make your price higher than the other tenderers all of whom, like yourself, quoted firm prices.

Yours very truly,

W.M.Vincent.

Memorandum:

DIRECTOR, LANDS & DEVELOPMENT SERVICES

Re: Shubenacadie Indian Residential School - Water Supply - Your File I.A. 1156-4-2

We have your memorandum of October 19th, and we approve your making immediate arrangements to supply and install a suitable hypochlorinator at a cost of $500.00.

We have just received a telegram from Superintendent Rice stating that there is no complete chlorinator either at Shubenacadie or at Lennox Island. There are only a few parts available for a chlorinator, and for this reason we recommend the purchase and installation of a new hypochlorinator.
