This document was assembled and optimized in 2021 by Benjamin Farmer Lacombe and Jackson Pind under the supervision of Theodore Christou in the Faculty of Education at Queen's University to improve accessibility. For any use of these files other than research and personal study, please contact Library and Archives Canada.

Ce document a été compilé et perfectionné en 2021 par Benjamin Farmer Lacombe et Jackson Pind, sous la supervision de Theodore Christou, à la faculté d'éducation de l'Université Queen's, dans le but d'améliorer l'accessibilité. Pour utiliser les dossiers à d'autres fins que la recherche et l'étude personnelle, veuillez contacter Bibliothèque et Archives Canada.

Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

66-2-5 Ins. 2.

Ottawa, May 17, 1948.

Memorandum:

Colonel B. F. Neary,
Superintendent of Training.

Re: Wiring of Day School and Teachers' Residence.

I wish to advise that during my last visit to the Tobique Reserve, I discovered that there were a number of extensions made to the wiring in the basements of both the buildings by a person, or persons, who were unqualified to do so. There is always danger of fire because of a short circuit.

I instructed Superintendent MacPhail to obtain the services of a qualified electrician and have him check all this wiring and, if it is found to be dangerous, to cut off the current until such time as the necessary repairs can be made. Mr. MacPhail, no doubt, will report his findings in the near future.

J. E. Morris,
Acting Inspector Indian Agencies.

INSPECTOR OF INDIAN AGENCIES

CANADA

DEPARTMENT
OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH

Ottawa, May 17, 1948.

Memorandum:

Colonel B. F. Neary,
Superintendent of Training.

Re: Wiring of Day School and Teachers' Residence.

I wish to advise that during my last visit to the Tobique Reserve, I discovered that there were a number of extensions made to the wiring in the basements of both the buildings by a person, or persons, who were unqualified to do so. There is always danger of fire because of a short circuit.

I instructed Superintendent MacPheil to obtain the services of a qualified electrician and have him check all this wiring and if it is found to be dangerous, to cut off the current until such time as the necessary repairs can be made. Mr. MacPhail, no doubt, will report his findings in the near future.

J. E. Morris,
Acting Inspector Indian Agencies.

Mr. N. H. MacPhail,
Superintendent, Indian Agency,
P e r t h, New Brunswick.

Tobique Indian Day School.

We have received a report that a number of extensions have been made to the wiring in the basements of both the school and the teacherage located on the Tobique Reserve. If these extensions were made by unqualified persons, the Department feels that a real danger of fire exists. Would you therefore please arrange to obtain the services of a qualified electrician and have him check all this wiring. If it is found to be dangerous, the power must be cut off until such time as the necessary repairs can be made.

Bernard F. Neary,
Superintendent of Education.

The Secretary
Indian Affairs Branch
Ottawa

Dear Sir:

I wish to advise that I have been given an approximate estimate of from $1000 to $1200 to remove the old stone wall and replace it with cement, under one-half of Tobique School, as follows:

Removing old wall	$350.00
Jacking and supporting building	100.00
Building form and new wall	250.00
Cement and lumber	300.00

1000

This work is urgent, as one end of the stone wall is caving, allowing the building to settle, and I do not think that the present foundation could be repaired satisfactorily.

If this expenditure meets with the approval of the Department, I would ask that you forward a cheque for $800.00 to cover cost of labour, as the work should be done during the next two months.

Dear Sir:

In reply to your letter 66-2-5 dated July 9, I wish to advise that repairs to Tobique School will probably be undertaken by a white man, Richard Wallace, who has built several Veterans' houses on Tobique Reserve.

He has two white employees, Gregory Hudson and James Wallace, the addresses of all three are Perth, R. R. #1, N. B..

Any additional men employed on this job will be Indians.

Sir:

Enclosed find Voucher No. 435 covering cost of heater purchased from Peter Thomas, Tobique Reserve. This is to replace heater in Domestic Science room, Tobique school, which had become a fire hazard.

Thomas bought this second hand heater for his own use but found it much larger than he needed. It is a much better value than new heaters of comparable size, which range in price from $45.00 upwards.

I trust this expenditure may be approved.

24th January, 1949.

Mr. N.H. MacPhail,
Superintendent, Indian Agency,
Perth, N.B.

We have your letter of the 14th instant regarding Voucher 482. It is noted that you have arranged to have considerable electrical work done at the Tobique School, in view of authority given you in official letter of 3rd September, 1947.

As you are aware, that date was in the fiscal year 1947 - 48, and you should have secured new authority subsequent to 1st April, 1948, the beginning of the fiscal year 1948 - 49.

If the work has already proceeded, we will honour accounts to $221.81, the amount previously authorized. Owing to lack of funds at the present period of the current fiscal year, it will not be possible to allow a larger amount.

Sir: Re: Voucher #482 - $221.81

When submitting Voucher #482, payable to MacPhail Hardware Company, Limited, $221.81, covering cost of electric light fixtures and sundry supplies for Tobique School, I neglected to advise that I had authority dated September 3/47, to install four new lights in Tobique School. I was unable to get the services of a competent electrician at the time.

In the meantime, I was instructed in letter 66-2-5- dated May 25/48, to make a thorough check of all wiring in both the Teachers' Residence and school and make any necessary repairs.

This work was started, and when the lights authorized, were to be installed, the electrician advised they would be no improvement over the old ones. He recommended that fluorescent lights be installed. While Mr. Wright, the electrician was available, this work was done, without further authority from the Department.

I trust this expenditure may be approved.

For your information, repair work in the Teachers' Residence is not yet completed. That will consist mainly of new wiring, no fixtures are required.

Memorandum:

SUPERINTENDENT OF EDUCATION

Tobique Indian Day School.

There are two rooms in operation at Tobique. Nineteen pupils were present in the Senior room and twenty-six in the Junior. The reading of the pupils was fairly fluent but the teaching of the subject is very traditional. As in many of the schools no definite training of the physical aspects of reading have been undertaken. The Indian child has certain muscular deficiencies which prevents the pronunciation of sounds. This can be overcome only by muscular exercise in order to train and produce these sounds.

The weaving and sewing are quite satisfactory. The pupils enjoy this work, and a demonstration was made of the methods of integrating this work with the academic. I feel that by this means many of the lessons in the classroom will become meaningful.

Good work is being done at this school and while I did not check all the academic subjects, I am satisfied that progress is being made.

The exterior of the residence is badly in need of paint. This should be done if at all possible this season as deterioration is liable to take place. This residence is part hospital and part residence. In fact, the complete main floor and part of the basement is used for hospital charges. Whether the Medical Branch will assume any obligation for the up-keep of this building or not, I can not say. I feel that they have a definite responsibility there.

Respectfully submitted,

A.J. Doucet,
Supervisor, Vocational Training.

Mr. N.H. MacPhail,
Supt. of Indian Agency,
Perth, N.B.,

Following his inspection of the Tobique Day School, Mr. Doucet has reported to this office that he considers the exterior of the residence is in need of paint.

We are aware that the building mentioned is used partly as a teacher's residence and partly for a hospital.

We would appreciate it if you would let us know the approximate cost of the material and labour to paint the exterior of the building. You might obtain quotations for the painting on the basis of day labour with the Department supplying the paint which we can secure at a reasonable cost.

When we have this information, we will discuss the matter with the Indian Health Services with a view to determining if they will assist with the expenditure.

Philip Phelan,
Chief, Education Division.

Sir: Teachers' Residence-Tobique Res.

In reply to your letter dated June 8th., I have been given an estimate of $300.00 to cover labour and approximately 25 gallons of paint. The building is in very bad shape and it is difficult to make an accurate estimate on the material.

The Martin-Senour Company has offered the paint locally, for $5.00 per gallon. If this price is satisfactory, it would be more convenient to buy it locally, as I could get exactly the quantity I required.

I do not believe the local paint contractor, Mr. Barry Nevers, would take this job on a contract basis for $300.00 but he is very reliable and I would recommend that he be employed on a day basis.

Should receive approval BP

N. H. MacPhail, Supt.,
Northern N. B. Agency.

Re: Tobique Teachers' Residence

Your File No. 66/6-2

With reference to your letter of the 4th instant, the Department approves the purchase of 25 gallons of paint at $5.00 a gallon for painting the exterior of the building.

It is understood from your letter that you will have to do the work by day labour as you are not able to obtain anyone to take the work on a contract basis. We further understand that the cost of the labour will be approximately $300.00. It is understood that you will supervise the work and keep the cost of the labour as low as possible.

Philip Phelan,
Chief, Education Division.

Perth, N.B.

Re: Tobique Indian Day School

We have received your Voucher No. 261 in an amount of $308.70 issued in favour of George W. Wright. You quote as authority official letter of January 24, 1949.

The last paragraph of that letter read in part as follows: "If the work has already proceeded we will honour accounts to $221.81, the amount previously authorized." Apparently the work had not proceeded at that time, as the account from G.W. Wright is dated May 11th, 1949, and consequently, we feel that you should have written to us again before incurring the expenditure. You will also note that the amount of the Voucher is $86.89 more than the amount mentioned in official letter of January 24th, 1949.

Please let us have an explanation of the reasons for your action in this particular matter. Did you receive a tender from Mr. Wright for the materials and labour? If so, you should forward it to us.

Mr. N.H. MacPhail,
Supt. Indian Agency,
Perth, N.B.,

Tobique Indian Day School

Please find attached in duplicate a pupil enrolment form which I would like to have completed and returned here in due course.

You will recall that I mentioned this pre-school age, grade sex form to you when I recently visited Tobique. With this information, we will be able to more intelligently decide on whether a three of four classroom is required for the Tobique School.

I have already ordered the blackboard for the proposed basement classroom and would appreciate hearing from you as to whether any progress has been made in securing the services of a third teacher. If so, we should requisition for the classroom tables and chairs which will be needed.

Bernard F. Neary,
Supt. of Indian Education.

Memorandum:

Inspection Report
Tobique Indian Day School

Date of Inspection - September 16, 1949.

Teachers - Sister M. Victorine with a Second Class Certificate, five years of Provincial and five years of Indian experience. Sister M. Honora with a First Class Certificate, ten years of Indian and eleven years of Provincial experience.

School Building -

This is a two-room school with folding doors between the classrooms. The two rooms are bright and attractive with fair space for the number of children enrolled now. However, when the children return from Maine, it is obvious that an extra classroom will be required.

Classroom Activities -

(a) Senior Room - Sister Honora is doing a first rate job of teaching. The pupils tested well and I spent some time indicating how the vocabulary and language work could be improved. Her discipline is good and the pupils are interested in their work. She has a large number of boys attending and they are working hard.

(b) Junior Room - Sister Victorine is also a capable teacher and handles her class well. She has grades one and two speaking out more loudly and more clearly than many classrooms I have inspected. They read well - and in phrases and sentences. There is no word calling and she stresses this from the beginner classes up.

This is one of the better schools we have in our system and the credit is largely due to the calibre of teachers employed.

Recommendations -

1. That a third classroom be opened this Fall in the basement. There is a domestic science classroom, and heating is adequate. As electricity is available, a primary room could be operated here for the winter.

2. Mr. Doucet should visit this school and decide how a third and possibly a fourth classroom could be added.

4. Send census form to Mr. MacPhail so that the potential pupilage can be determined.

Bernard B. Neary,
Supt. of Indian Education.

The Secretary,
Indian Affairs Branch,
Ottawa

Sir: Re: Tobique Indian Day School

In reply to letter dated September 9th., re voucher No. 261, in favour of George W. Wright.

My original instructions in connection with electrical repairs on Tobique school and Hospital were that all necessary repairs be made to eliminate fire risk.

When Mr. Wright started to work in May, there was nothing I could do except let him proceed with the work as he saw fit.

The account has been held up for sometime, as I felt there should be some salvaged material. Mr. Wright finally showed me the old wiring, etc., that he had removed and as it was not fit to be used anywhere, I forwarded the account as submitted.

It was my intention to go over this work thoroughly with Mr. Neary during his recent visit but I forgot to take up the question of Mr. Wright's work.

I trust this account may be approved.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Attached is an account amounting to $308.70 covering the cost of repairs to the wiring in the Teacher's residence and day school on the Tobique Reserve. When forwarding this account, Superintendent MacPhail writes as follows:

"My original instructions in connection with electrical repairs on Tobique School and Hospital were that all necessary repairs be made to eliminate fire risk.

When Mr. Wright started to work in May, there was nothing I could do except let him proceed with the work as he saw fit.

The account has been held up for sometime, as I felt there should be some salvaged material. Mr. Wright finally showed me the old wiring, etc., that he had removed and as it was not fit to be used anywhere, I forwarded the account as submitted."

We agree with Mr. MacPhail that the work was extremely necessary, and when the electrician was working it was necessary to complete what was required. It would, therefore, be appreciated if you would issue Purchase Order so that the account may be paid.

KODAK SAFETY ▲ FILM

Requisition for School Material

Date September 28 1949

For Tobique Indian Day School Northern, N. B. Agency

NOTE:—

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

ARTICLES	NUMBER ON HAND	DATE OF LAST RECEIPT	NUMBER REQUIRED	NUMBER AUTHORIZED	REMARKS
Blackboard			18 ft.		
Chairs			20	14" high,	for small children
Tables			4	8 ft long,	15 in. wide 22 in. high.

N.B.—Explicit information regarding address must be furnished.

Name Sister Honora

School Tobique Indian Day

Post Office (nearest) Maliseet

Express Office (nearest) Perth

Province N. B

Sister Honora
Teacher

I Hereby Certify that I have examined this requisition, and that the articles asked for by the teacher are necessary and are such as are in use in the Provincial Schools.

Sir:

Enclosed find requisition for black-board and furniture, re third class-room, Tobique school, as recommended by Mr. Neary.

I think the tables can be procured locally. I have been given an estimate of between $6.50 and $7.00 unfinished. I would advise that chairs required be the same as those supplied under purchase order 31628, dated June 25, 1948.

I would also like authority to make minor changes in the lights of the domestic science room where the new class-room is being set up.

Sir:

NOV 14

I have been advised by Sister Honora, principal of Tobique School, that print and yarn on requisition dated May 20th. would cost $60.00, groceries approximately $20.00.

In your letter 284-5, dated June 20th., an amount not to exceed $25.00 was authorized for material. The $20.00 authorized for noon lunch which does not seem to be necessary, would cover the cost of groceries.

I would ask that the amount for material be increased to at least $50.00.

Purchase Order No. 50543 Dept. of Mines & Resources

Dear Sirs:

I would refer to your invoice No. 7590 of December 6, 1949, your Order No. 5676.

This deals with the provision of 20 chair desks to the Tobique Indian Day School at Maliseet, N.B.

Your account is in the amount of $89.24 but our Treasury regulations require that a freight receipt be sent with such accounts.

Would you please obtain such a receipt in the amount of $5.94 and forward it here as soon as possible. Rather than delay payment of this account it is being passed for payment of $83.30 pending the arrival of this freight receipt.

It would be appreciated if in future you could send such freight receipts with your accounts so that there will be no further unnecessary delays. We are pleased with your product and hope that the forwarding of these freight receipts can be arranged with future accounts.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Tobique Indian Day School - Classroom Activity Table

By now you will have received from Canadian Penitentiary Industries the four activity tables ordered after my recent inspection of the above school.

As this is a new venture, it would be appreciated if we could have the comments of yourself and your teachers as to the suitability of these tables.

Memorandum:

COLONEL NEARY

Tobique Indian Day School

The Tobique School is in a fairly well conserved condition. One difficulty in heating the rooms is the excessive height of the ceilings. This of course could be fairly easily remedied. Some repair will be necessary to the plaster. This should not be expensive for I believe that the present plaster is sufficiently good to justify repairing.

Appended to this report is the number of pupils from the age of 6 to 16 years. The present enrolment is 80 and there appears to be no great change in this enrolment for at least five years. From the figures given in this appended summary it appears that the addition of one classroom would adequately satisfy the educational needs of this reserve for the next ten years. The present plan lends itself readily to the addition of a third classroom giving it the shape of an L. The third classroom windows would be facing south which would give adequate lighting. Below this classroom a well organized Manual Training shop could be devised.

I would then suggest that an architect proceed at the earliest convenience to Tobique and make the plans so that this construction may be undertaken as

soon as weather permits. The rough lumber could be obtained from the reserve at the approximate cost of $32.00 per thousand. The heating system could readily be changed into a forced air heating system. Our mode of construction should be decided as soon as possible so that Superintendent MacPhail may be given an advance to have the lumber prepared.

Respectfully submitted,

A.J. Doucet,
Supervisor of Vocational Training.

Tobique Indian Day School
Restigouche Indian Day School

Dear Mr. Gibson:

The Tobique Indian Day School is situated near Perth, N.B. and the Restigouche Indian Day School is situated near Campbellton, N.B.

Tobique School - The Tobique Indian Day School is a two-room school with a third class presently being conducted in the basement. We are anxious to make a one-room addition to this building and would appreciate a visit from one of your architects so that the necessary plans and specifications can be prepared. The present plan lends itself readily to the addition of a third classroom which would give the building the shape of an L. The windows of this third classroom would be facing the south which would ensure adequate lighting. Below this classroom a well organized Manual Training shop could be installed in the basement. Mr. Indian Superintendent MacPhail lives at Perth and will be able to take the architect out to the school so that the necessary plans can be prepared.

Restigouche School - This is a five-room building and we are conducting a sixth class in the nearby provincial school. Two of the classrooms provided are

very small having be n devised when the building was modified.

We wish to extend this building in the form of an H thereby adding two classrooms and enlarging the two small ones. Mr. Indian Superintendent Nadeau lives at Restigouche and arrangements could be made to meet the architect when he arrives at Campbellton which is two miles away.

Both of these projects are readily accessible and are not too far apart. It would be appreciated if you could have an architect proceed to these schools to draft plans and specifications for these required additions. If further details are needed they can be obtained from the Education Division of this Branch.

Sir

Tobique Indian Day School-
Classroom Activity Tables

In reply to letter dated January 20th., re classroom activity tables, I am enclosing letter from Sister Honora, principal of Tobique School, giving her comments on the tables.

In my opinion, these tables are very suitable for the work for which they are intended, that is activity work. As I understand it, they are not meant to take the place of classroom desks.

N. H. MacPhail, Supt.,

Perth, N. B.

Dear Mr. MacPhail;

In reply to your request for comments on the four tables which we received for use in Grade One, we wish to state that we think they are most satisfactory for Kinder - garten work or for activity work in a classroom. For class work, we think they allow too much communication among the children which might in time create a lack of self-reliance.

Yours truly,

Sister Honora

February 16, 1950.

The Secretary,
Indian Affairs Branch,
Ottawa

Sir:

During the last visit of Mr. Doucet to this Agency, the question of an addition to Tobique School was discussed. Mr. Doucet was of the opinion that one class-room 30' x 30' should be added to the present building.

If this expenditure is to be approved, I would request the authority to cut and saw rough lumber required, within the next few weeks.

I do not know the exact specifications of the proposed wing but estimate approximately 15 m.B.ft. would be required. This will cost $20.00 per thousand for cutting, yarding and trucking. I would not be able to have the lumber sawed however until I have the exact specifications of floor and ceiling beams, rafters, etc.

If this expenditure meets with the approval of the Department, please forward advance cheque for $300.00 to pay above mentioned costs. Account for the sawing at $11.00 per thousand will be submitted by voucher.

N. H. MacPhail, Supt.,
Tobique Indian Superintendency.

Tobique Indian Day School

Reference your 66/6-1 of February 16

We have included in our 1950-51 Estimates a sum for an addition to the above school. This money will not become available until April 1, 1950.

I presume from your letter that you would recommend erection by day labour rather than by contract. In this way you can be certain that more Indians will be employed in the construction of the building.

If you have a foreman-carpenter in mind, please give me his name, address and recommended rate of pay per hour. We can then obtain Ministerial approval for his appointment during the construction of the building.

I wrote to the Department of Resources and Development requesting that they have an engineer visit the school and prepare the necessary plans and specifications. They will try to have an engineer down in the near future.

If you intend to use day labour as suggested above, then we agree that the cheapest way would be to buy lumber from the Indian mill. Please write again outlining your plans and we can forward the accountable advance after April 1, 1950.

Bernard F. Neary,
Superintendent of Education.

Copy sent Mr. Nadeau & Mr. MacPhail

Ottawa, April 2?, 1950.

Dear Mr. Gibson:

Tobique Indian Day School
Restigouche Indian Day School

You will recall our previous correspondence concerning the additions which are required to both the above schools.

Would it be possible now to assign an Engineer to carry out the required inspection of these schools with the necessary preparation of plans for the required additions.?

Our Education Division estimates that this trip should only take about six days as both schools are fairly close together and both are accessible by railway. If the Engineer you assign for this work could contact the Superintendent of Education, he will be given assistance in planning his itinerary so that he will not be absent from Ottawa for more than a week.

Yours truly,

Director.

Mr. Doucet,-

Mr. Goodike will be out of town all next week - returning Sunday evening, May 28th. to join you on the trip to Restigouche and Tobique.

When you are making your own hotel and train reservations, will you kindly arrange for his.

I have secured an accountable advance for him, but in order to get the train accommodation for him I presume you will have to have a Warrant.

I presume also that you will meet him at the station. Please phone me re these matters.

Marion Walton.

JUL 17 1950
RECORDS
INDIAN
AFFAIRS

Dear Mr. Jones:

I was called to the Tobique Reservation yesterday by the Chief and Father Sam who had several complaints to make.

I understand that the building of two welfare houses was started. The basements are in but they have not had any further word to go ahead.

Re the school. The engineer and inspector were there taking measurements for a 30 foot wing to be built on the school and said the work would start right away, but nothing has been heard since. I do not agree with the engineer's plan to build this wing as it is on the wrong side of the building. They have three teachers now with two class rooms. I understand one of these teachers is only temporary. There will be 90 children starting this fall and 50 more next fall so they are quite crowded.

E.

They told me that an educational representative from Ottawa was there this spring and told them to get 8 boys and girls ready to go to vocation school or a higher grade school and everything would be arranged. Nothing more has been heard about this and they have the boys and girls all ready.

E.

The foundation of the pumphouse needs to be looked after at once, otherwise it is apt to undermine the house which will slide into the river. Although there is ledge at this point they did not dig down to it and there is about 4 to 5 feet of loose gravel between the concrete bottom of the pump house and the ledge. The side next to the river has been washed away and it should be wharfed up at once to save further damage.

I was asked to bring these matters to your attention with the hopes that you might give them prompt attention.

Thanking you

Yours very truly,
(sgd) H.H. Hatfield
Victoria-Carleton.

17/7/50.

Colonel Neary -

For your comments, please.

MISS WALTON

Tobique Indian Day School

I cannot answer the queries with regard to the school as there has been no report from Mr. Goedike yet. He visited this school on May 28 but we have yet to receive his report.

The boys and girls who graduated from grade 8 are being left at Tobique for grade 9 studies.

284-5 (A 1)

August 1st, 1950.

MEMORANDUM:

MR. BUCK,
CHIEF ENGINEER.

Some time ago Mr. Goedike prepared a report on his inspection of the Tobique Indian Day School and water supply system. This report was sent to your office some time ago.

A letter has been received from Mr. H. H. Hatfield, M.P., from which I quote, -

"Re the school. The engineer and inspector were there taking measurements for a 30' wing to be built on the school and said the work would start right away, but nothing has been heard since. I do not agree with the engineer's plan to build this wing as it is on the wrong side of the building. They have three teachers now with two class rooms. I understand one of these teachers is only temporary. There will be 90 children starting this fall and 50 more next fall so they are quite crowded.

They told me that an educational representative from Ottawa was there this spring and told them to get 8 boys and girls ready to go to vocation school or a higher grade school and everything would be arranged. Nothing more has been heard about this and they have the boys and girls all ready."

You will note that Mr. Hatfield does not agree with Mr. Goedike's recommendations. Please let me have sufficient information to enable me to reply to Mr. Hatfield's letter.

In Mr. Hatfield's letter he also refers to the foundation of the pump house. We have written to the Indian Superintendent for a report on this matter, as Mr. Ross, the only engineer familiar with this installation and pump house, is out of town and will be away for a month or so.

Col. Jones,
Superintendent of Welfare.

Re - Letter dated July 14 from
Mr. H. H. Hatfield, M. P.
of Hartland, N. B.

I would suggest that the following might be included in preparing a reply to Mr. Hatfield's letter. With reference to the school it is true that an engineer and an official of the Indian Education Division visited the existing school to gather data to enable the Department to decide what should be done to provide further accommodation for pupils. Their recommendations have not as yet been studied by the Chief Engineer and other interested officers of the branch. Therefor no decision has yet been reached as to the location of the addition in relation to the existing building.

When a decision is reached as to what steps will be taken to provide additional accommodation at the school we will write to you further.

With regard to the pump house we have asked our Indian Superintendent for a report as the engineer who had charge of this work is presently out of town and we have been unable to secure any information from him. If the foundation of the pump house requires attention you may be sure that no time will be lost in making the necessary repairs.
