Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

Department of Indian Affairs
MAR 27
RECEIVED

Perth, N. B. March 25th. 1939.

Sir,

During the past two years there has been correspondence on the question of supplying an Electric Washer to Tobique Hospital.

While in Ottawa in January I discussed this matter again with Dr Stone.

As stated in former letters the cost of a suitable washer for this institution would be about $112.00 list price being $137.00 without pump $147.00 with one. These prices would be subject to about #20% making the net between $110.00 and $125.00. These prices are approximate.

Yours truly,

N. H. MacPhail, Indian Agent

Dear Sir:

With reference to your letter of the 19th ultimo and Mr. Hoey's reply of the 4th instant in connection with the new roof of the Tobique Indian day school Mr. Wetmore Davidson may be employed as carpenter-foreman. The Purchasing Branch has been requested to secure the shingles and nails. The Department will depend on you to supervise this work in order that it may be completed at as reasonable a cost as possible.

Yours truly,

Philip Phelan,
Chief, Training Division.

PLEASE QUOTE

Perth, N. B. February 16th. 1940.

Sir,

In 1937 the question of supplying ~~x~~ some electrical equipment for Tobique Hospital was discussed with several Department officials.

The last letter on the subject was #66-2-8 dated Nov. 8/37. and included Refrigerator, Washer and Ironer. In July 1938 a refrigerator was authorized and purchased but nothing furthur has been done about the laundry equipment.

I would again like to recommend the supplying of at least the washer. Enclosed find circular showing machines and prices from authorized dealer L. A. Pinder.

No enclosure

Trusting this expenditure meets with the approval of the Department, I am,

Your obedient servant,

N. H. MacPhail, Indian Agent.

REGISTERED

Perth, N. B. April 15th. 1940.

Sir,

I beg to report that when the Tobique Teachers Residence was re-roofed last summer I did not do the two porches as there seemed to be a possibility of this building being converted into a sanatorium which would necessitate a change in these porches.

Would the Department advise if there may be any change in the near future.

If I complete the roofs as they are only labour would be necessary as I have sufficient shingles.

Your obedient servant,

N. H. MacPhail

Dear Sir:

I desire to acknowledge receipt of your letter of the 15th instant, with reference to re-roofing the porches at the Tobique Indian day school teacher's residence.

It is noted that you have the material on hand, but before authorizing the work I would appreciate your advising the approximate expenditure that will be necessary, also if Indian labour can be employed. If it will be necessary to employ white men, you should state the tradesmen required and the approximate number of days they will be engaged at the work.

Yours truly,

Philip Phelan,
Chief, Training Division.

Sir,

In reply to letter #66-2-8 dated April 18th. I beg to advise that I will require Mr W. P. Davidson the carpenter that was employed last summer to do the porches refered to in my letter.

I think the work can be done in one day with the help of Indian labour I will use men that are receiving relief.

I will also require two rolls asphalt felt and two sheets of zinc. Approximate cost of material about $9.00.

Trusting this expenditure meets with the approval of the Department, I am,

Your obedient servant,

N. H. MacPhail, Indian Agent.

Perth, N. B. May 9th. 1940.

Sir,

Authority was granted by letter #66-2-8 dated July 4/39. to reroof woodshed adjoining Teachers Residence Tobique Reserve.

This work was not done last year as upon furthur examination I considered it should be torn down and enlarged.

To make the necessary changes I would require:

250 Ft Boards	$ 6.00
150 " Studding	4.00
500 Ft. Steel Roofing	35.00
Labour (app.)	15.00
	$60.00

There is also a small building (about 9'x12') that I wish to dispose of. If it has no cash value I would ask permission to give it to some Indian.

Trusting this expenditure meets with the approval of the Department, I am,

Your obedient servant,

N. H. MacPhail

EXT
8

Dear Sir:

With reference to your letter of the 9th instant you may expend an amount not exceeding $60.00 for material and labour in enlarging the woodshed at the Tobique School.

This amount together with that authorized in my letter of April 30 exhausts the amount provided in the current year's appropriation for repairs and improvements at the Tobique School. Consequently favourable consideration cannot be given to additional requests.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Perth, N.B. February 24-1941.

Sir:

At the time of Inspector Thibault's visit the question of washing machine for Tobique Hospital was discussed. The Sisters of Charity had been obliged to purchase a machine and Mr Thibault was to recommend that the Department refund the full purchase price of $125.00, as yet I have had no advice on the subject from the Department.

This equipment was absolutely necessary and as I do not feel that the Sisters should be called on to provide same for use in a Department building I would request that the refund be made as per Mr Thibault's recommendation. Please advise.

FILE

APR 28 1943

Perth, N. B. Apl. 24th. 1943.

The Secretary, Indian Affairs Branch, Ottawa, Ont.

Last month when it became evident that I was going to have difficulty getting sufficient furnace wood for School and Teachers Residen ce, Tobique Reserve for next winter, I wrote the Standard Sanitary & Dominion Radiator Ltd. re equiping the furnace in Teachers Residence for coal burning.

I have been advised that it would be satisfactory but would have to be fitted with coal grates.

This furnace was equipped with new wood grates only last spring but I would recommend that coal grates be installed and authority granted for the purchase of 15 tons of coal which, I understand is equal to 30 cords of wood.

I will still require wood for School furnace and Teachers Residence kitchen range but I think this should be obtainable.

Mr. N.H. MacPhail, Indian Agent, Perth, N.B.

I have your letter of the 24th instant, with reference to burning coal instead of wood at the Tobique teachers' residence.

From information that we have available it appears that it will be almost as difficult to secure coal as wood. Consequently it is doubtful if it is advisable to change at the present time. Please let me know where you think coal could be secured, in the event of the Department approving the use of it instead of wood.

July 20, 1943.

Mr. N.H. MacPhail, Indian Agent, Perth, N.B.

I have your letter of the 13th instant, in which you state that the painting required is for the exterior of the Tobique School. At the present time we are not in a position to decide if there are sufficient funds available for this purpose. You might write again around the first of September and, if our appropriation is in good shape at that time, we might be able to allow the expenditure, in which case the work could be done during the fall.

Philip Phelan,
Chief, Training Division.

Mr. N. H. MacPhail, Indian Agent, Perth, N. B.

With reference to your letter of the 1st instant, careful consideration has been given to your recommendation to paint the exterior of the Tobique Teachers Residence.

In your letter of June 25th you recommended that the Nevers Brothers be employed. Please forward for our consideration a written quotation from this firm outlining exactly the work they are prepared to do and their prices.

If possible you should also obtain prices from two or three other firms.

Philip Phelan,
Chief, Training Division.

RE: Painting Teachers Residence

Enclosed find estimate for painting above mentioned building as per letter No 66-2-8 dated September 10th.

Nevers Bros are the only reliable painters left in this area therefore this will be the only estimate submitted.

If this expenditure is approved work should be started not later than September 27th. If it turns wet or cold the painters recommend that the building be given only one coat this fall.

N. H. MacPhail, Indian Agent.

MEMORANDUM:

DEPARTMENTAL PURCHASING AGENT.

I am sending forward herewith, for your information and for any comments you may care to offer, an estimate received by Indian Agent MacPhail for the painting of the teachers' residence at the Tobique Indian Reserve. While the Tobique school is in reality a combined school and hospital, with a rather large teachers' residence occupied at the present time by Sisters, the estimate received seems rather high to the officials of this Division. You will note, from the Agent's letter, that Never Brothers are the only reliable painters left in the area and that he is unable to submit another estimate.

R. A. Hoey,
Supt. of Welfare & Training.

Memorandum

Mr. R.A.Hoey

With reference to your memorandum of the 22nd instant, file 66-2-8, re painting of the Tobique Teacher's residence and Hospital, - as stated in conversation of even date, the prices quoted by Never Bros., Perth, N.B., are excessive, particularly for labour.

Would it not be possible to have this painting done by the Indians, preferably next spring. When you decide to have the decorating done, I would suggest that you send us a requisition for the paint - which we can purchase at a considerably lower price than quoted by Never Bros.

W.W. Davidson
Departmental Purchasing Agent.

Mr. N.H. MacPhail, Indian Agent, Perth, N.B.

I am sending forward herewith copy of a memorandum received by this Branch from the Departmental Purchasing Agent. The subject matter of this memorandum, you will note, is self-explanatory.

It would be appreciated if you reviewed early in the spring the labour conditions in the district and, if labour at that date is available, you might send in a requisition for the paint necessary to complete the painting of the Tobique teachers' residence. You will note that the quotation received by you from Never Bros. is not acceptable to the Department.

Perth, N. B. Oct. 9th. 1943.

The Secretary, Indian Affairs Branch, Ottawa, Ont.,

I have to advise that the ~~press~~ expansion tank on Teachers Residence heating system has worn out. Instead of replacing I would like authority to instal an Emco-Acme Automatic Pressure Control. The cost is $18.00 plus installation.

A new Galvanized Iron expansion tank would cost about half this amount but is not entirely satisfactory.

Your obedient servant,

N. H. MacPhail, Indian Agent.

RECEIVED

Mr. R. A. Hoey,
Supt. Welfare & Training,
Ottawa, Canada

Dear Mr. Hoey:

Again in our necessity we turn to you for assistance.

For the past few years we have received only the bare essentials in the line of materials for repairs, etc. and the teacher's residence is now showing the need of more attention. The basement and halls are badly in need of renovating.

We feel that this could be done at a very low cost. We would be willing to supply the labour ourselves provided the Department would appropriate at least $25.00 (Twenty-five Dollars) to cover the expenses of repairs, paints, etc.

As no doubt you know through our Indian Agent, Mr. N. H. MacPhail that we try to keep this house in the best possible condition and much of this work has been done at our own expense, especially since the war. You also know the cost of living is very great and our salaries have not changed since pre- war times.

We should be very grateful if you would please give this matter your serious consideration and we feel quite sure that if you will do your part the Department will be willing to co- operate with us.

Thanking you for past favours and hoping for a favourable reply at your very earliest convenience,

We wish to remain

Yours truly,

Sisters of Charity
Sister Honora (Teacher)

Mr. N.H. MacPhail, Indian Agent, Perth, N.B.

I am in receipt of a letter from Sister Honora in which she states that the basement and halls of the residence at the Tobique School need renovating. She further states that the material required will cost approximately $25 and that the school staff will supply the necessary labour. The Department approves the expenditure of the amount mentioned.

ORIGINAL 77-46

64-2-8

Ottawa, December 3, 1945.

Memorandum:-

- Director -

The following is a brief report of my short visit, November 6, P.M., to the New Brunswick North Agency.

TOBIQUE RESERVE

SCHOOL. The school is a two-roomed building in very good condition. Repairs are required to the roof over the entrance, and the stone foundation at the east or back end will have to be torn down and rebuilt. This work should be done next year. The children are in a clean, neat, healthy condition. Attendance at the time of my visit was very good. However, during the month of September, and part of October, many children went to Maine to pick potatoes. Teaching Sisters condemned this practice very strongly. As I stated in my other reports the annual movement of children, to Maine, should be discouraged. The school is equipped with electricity which is supplied by a local Power Company.

TEACHERS' RESIDENCE AND NURSING STATION

This is an excellent building and it is kept in an immaculate condition. It is my opinion that this building should be made available as a hospital to take care of the needs of all the Indians in the St. John River Valley. At little cost it could be renovated to accommodate fifteen to eighteen beds. A complete laundry service would necessarily have to be installed consisting of washing machines, ironers, etc., - in addition a root-house would have to be constructed, adjoining the basement, to provide storage for vegetables, canned fruits, etc. There is a very urgent need to provide hospital space to accommodate the number of sick Indians in the Maritimes. There are many T.B. cases that are not receiving the proper medical care because it is impossible to obtain space in the white hospitals. By converting this building into a hospital it would provide immediate space, and would make it possible for the Medical Division to do something really worth while to take care of medical cases.

This building is already equipped with electricity from a local Power Company.

If this recommendation is approved then a residence will have to be constructed to house the teachers and the nursing sisters.

J. E. Morris,
Welfare Division.

Perth, New Brunswick
July 28, 1947

The Secretary
Indian Affairs Branch
Ottawa

Dear Sir:

Certain changes are necessary in the laundry room, Tobique Teachers' Residence. At the present time the source of hot water is a range boiler connected to the kitchen range.

I would recommend that an oil burning heater be installed in the basement, doing away with the range boiler in the kitchen. This would provied a constant supply of hot water and eliminate a fire in the kitchen range a great part of the time during the summer months.

There is a small stove in the laundry room, upon which an ordinary wash boiler is used to sterilize patients bedding. This stove is worn out and must be replaced. I would recommend that a stove similar to that now in use be purchased, as the new heater will not eliminate the necessity for a stove.

The oil heater installed will cost approximately $200. As yet I have not prices on the new stove but I would estimate the cost from $50 to $75.

MEMORANDUM

- Col. B.F. Neary -

Re: Painting and repairs to exterior of school and teacher's residence at the Tobique Reserve.

I wish to inform you that the school teacher's residence is badly in need of painting on the outside. If money is not available for this work this year then provision should be made in next years estimates so that the work may done early in the next season. I would estimate that the cost of the material and labour for this building would be approximately $1,000.

The stone foundation under a portion of the school is also in need of repair. I would suggest that $500 be placed in next years estimates for this work.

J. E. Morris,
Acting Inspector,
Quebec and the Maritimes.

description

The Rheem oil storage water heater is a completely automatic unit built to operate safely and efficiently on any of the better grades of domestic fuel oil. If an oil-fired central heating unit is already installed, this heater can in most cases utilize the same oil supply.

New in every detail, the Series 70 embodies the most advanced developments in automatic oil storage water heating. Unlike similar heaters, all parts on the Series 70 are protectively housed inside a beautiful steel jacket finished in gleaming baked enamel—a feature exclusive with Rheem.

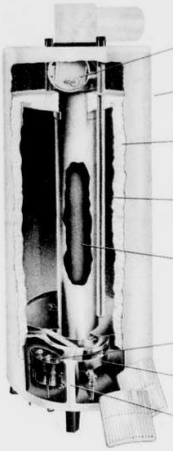
The Rheem patented pot-type burner burns the fuel at new high efficiencies that closely approach the theoretical limits with drafts as low as only 0.03 inches of water pressure. The patented burner inlet is specially designed to prevent troublesome carbonizing and plugging. And best of all, this new burner operates on a pilot flame so small it makes possible a revolutionary new low in oil-consumption; it actually burns only a small fraction of the oil normally consumed by other burners on low fire.

Operation is fully automatic. Oil input to both main burner and pilot fire is monitored at all times and in the event of pilot flame failure, the safety-float control snaps the oil valve shut until the pilot is manually re-lighted.

Installation is simple; it requires only a hot and cold water connection, a flue connection and an oil supply.

Operation is easy; once lighted and adjusted, the automatic thermostatic control takes over.

Maintenance is almost non-existent, only at rare intervals does the unit require any cleaning or adjusting.



DRAFT REGULATOR
Factory-set at 0.04 inches of water pressure to meet average field conditions. Protectively housed inside steel heater jacket—an exclusive Rheem development which assures actual and proper operation of this regulator.

OUTER JACKET
Durable sheet steel finished in glossy, white enamel for beauty and easy cleaning. Exclusive Rheem patented design houses all parts inside jacket.

INSULATION
A 2-inch thick jacket of high-efficiency Fiberglas holds maximum heat in the storage tank. Many ordinary oil-fired heaters use no insulation because of excess heat on low fire. Small pilot flame in Rheem heater permits full use of insulation, hence saves heat, cuts fuel bills.

STORAGE TANK
A Rheem-fabricated steel tank, electrically welded and hot-dipped galvanized both inside and out for long service. Tested to 300 psi, working pressure 150 psi. Standard Formula, 127.5 psi. Massachusetts Statute Formula. Guaranteed against all defects in material and workmanship.

FLUE
Full six-inch diameter construction within tank aids low draft operation and provides generous area for heat transfer from flue gases to water in tank. Six-inch vent pipe.

SAFETY-FLOAT CONTROL
Automatically regulates oil flow to burner through float-type needle valve actuated by expansion-type thermostat. To provide utmost in safety, the safety float control snaps the oil valve shut in the event of pilot flame failure.

LOW-PILOT BURNER
Operates on a pilot flame so small it uses only a fraction of the oil normally consumed on low fire. Burns fuel at top efficiencies with poor flue drafts as low as 0.03 inches of water pressure. Simple, sturdy, built for long life.

INSTRUCTION MANUAL
Included in control compartment of each heater. Tells how to install, operate, maintain.

automatic oil storage water heater

oil burner

EASY-OUT MOUNTING
Two pins in slots hold burner assembly in position, manually removed with only ⅛ turn.

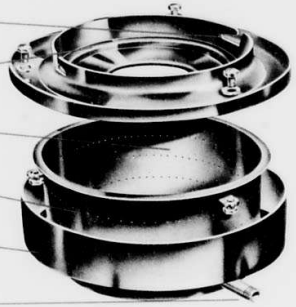
CHOKE RING
Special Rheem down-flare design aids combustion and prevents warping or burning of ring.

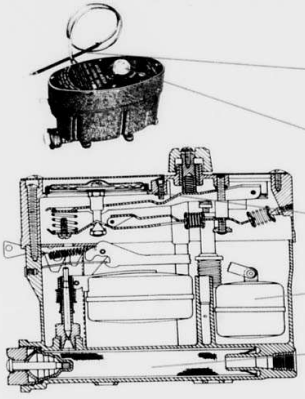
LOW-DRAFT COMBUSTION CHAMBER
Burner pot and air-port dimensions carefully engineered for maximum combustion efficiencies under poor draft conditions ranging as low as only 0.03 inches of water pressure.

PRIMARY AIR PORTS
Precision spaced for better fuel-air mixing, greater fuel-burning economy.

ANNULAR GUARD RING
Protects pilot flame from sudden drafts, heats primary air entering side ports, and prevents any oil from spilling out of burner pot.

NON-CLOGGING INLET
Patented Rheem feature uses downward pitch of inlet together with small air vent into inlet to eliminate carbon plugging.





control

EXPANSION-TYPE THERMOSTAT
Operates on expanding-fluid principle. Holds pre-set temperature within narrow limits.

FINGER-TIP TEMPERATURE CONTROL
Permits easy adjustments within close limits. A simple turn of the dial sets water temperature at any desired level.

MANUAL FIRE ADJUSTMENTS
Input to both main burner and pilot fire is pre-set at factory. Field adjustments can be made within narrow limits by rotating screws a fraction of a turn.

SAFETY FLOAT OIL CONTROL
Operates same as float type carburetor. Shuts off all oil to burner if pilot flame is extinguished.

EASY-TO-CLEAN STRAINER
One thumb screw holds it in place. Can be readily cleaned with fuel oil and small brush.

J. M. STEWART

PERTH, NEW BRUNSWICK

Plumbing and Heating

Distributor of Furnaces and Oil Burners

Shallow and Deep Well Water Systems, Ranges, Radios, Air Conditioning Units, Electrical Supplies, Hardware, Metal Work

NO Mr Morris advises.

August 16, 1947

Indians Affair Branch

Dear Sir:-

I would install one only Rheem Oil Burning Hot Water Heater in the Teacher's Residence at Maliseett, with 45 gallon storage, and connect this heater with the hot and cold water lines. Connect fume pipe to chimney and connect tank with fill pipe and air vent for $ 200.00.

Or connect the same heater with 250 gallon storage tank, which would supply heater with oil for approximately six months with one filling for $ 250.00.

These Heaters are manufactured by Rheem Mfg. Co. New York and distributed in Canada by us.

All heaters installed by us are guaranteed to give ample hot water and satisfaction

Yours truly

J.M. Stewart

Dear Sir:

In reply to letter #66-2-8, dated July 31, enclosed find tender from J. M. Stewart, local plumber, re installation of an oil burning hot water heater.

OK!

I have decided that a coal burning kitchen heater would be a satisfactory type of stove. The price would be from $60 to $65, but I am unable to give you the dealer's name as I do not know where one might be procured.

Trusting this expenditure meets with the approval of the Department, I am,

Yours truly,

N. H. MacPhail, Indian Agent

R 2792

This space for use of Head Office only

Requisition No.

Order No.

DEPARTMENT OF MINES AND RESOURCES

Ottawa, August 28 19 47.

To the Departmental Purchasing Agent, Ottawa,

PLEASE FURNISH THE FOLLOWING SUPPLIES FOR USE OF

Tobique Indian Day School

VOTE 516 ALLOTMENT 12-422 ALLOCATION SYMBOLS

SHIP TO Mr. N. H. MacPhail, Indian Agent, P e r t h, New Brunswick.

Purpose for which required

QUANTITY		UNIT PRICE	TOTAL
1	Coal burning Kitchen Heater for hot water		
	EX'D. A.		
	NOTE:-		
	Indian Agent MacPhail estimates the price of this heater from $60 to $65 but does not state the name of any dealer.		

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

SIGNED—

APPROVED—

Director

NOTE:— 1. In ordering stationery and printed matter use separate sheets.
2. Order numbered forms by number or send sample.
3. Orders for unnumbered forms should be accompanied by samples.
4. Orders for books should be accompanied by sample pages or folios.
5. Orders for which purchase orders will issue should give as full details as possible for each item.
6. All Requisitions should be submitted in duplicate. One copy will be returned as acknowledgment.

The Secretary,
Indian Affairs Branch,
Ottawa, Ont.

Sir:

I have to advise that the cesspool for the Teachers' Residence, Tobique Reserve, flooded with water some weeks ago and was forced back into the basement of the building.

I dug a temporary hole to relieve the situation and this week have built a new cesspool on higher ground, nearer the building.

The cost will be about $150.00. Orders will be given in payment and a labour return submitted for this expenditure.

N. H. MacPhail, Supt.,
Northern N. B. Agency.

Superintendent, Indian Agency,
Perth, New Brunswick.

We have your letter of the 31st ultimo with reference to the cesspool at the Tobique teacher's residence. It is noted that the cost of a new cesspool will be approximately $150.00.

The Secretary,
Indian Affairs Branch,
Ottawa

Sir:

Enclosed find vouchers covering congoleum squares and linoleum hall runner that due to a misunderstanding were orderdd by Sisters of Charity, without my knowledge.

These items were deleted from requisition dated March 28th., but the matter was explained to Dr. Leroux during his visit here last spring.

I trust these accounts may be approved.

N. H. MacPhail, Supt.,
