## Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

## Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

Sir:-

I am in receipt of a letter from the Rev. Father Levern, Principal of the R.C. Indian Residential School on the Peigan Reserve, who asks to be supplied with certain equipment this Spring, in order that he may start to prepare a farm before the new school is in operation, which I think is a very wise plan. He asks for three sets of harness, plow with breaker bottom, disk, waggon and anything else that may be required. He asks for six work horses. I do not know that I am prepared to recommend the purchase of six horses, as I think four should be ample, but the implements asked for seem to me to be necessary.

I shall be glad to know if this equipment can be supplied to the school.

Ottawa, March 11, 1926.

Sir:

I have your 406-11A of the 6th instant, with reference to supplying agricultural machinery and work horses for the Peigan R. C. Indian Residential School. I should like to know what equipment and stock this school has at the present time. Our funds are extremely limited and only the most pressing requisitions can be given favourable consideration. The Department would like to deal favourably in this connection, but it will be necessary to know what are the minimum requirements for successful farming operations this year on the new site.

Sir:-

I am in receipt of Department letter No. 116-2-5 of the 11th instant, in connection with the supplying of agricultural machinery and work horses for the Peigan Roman Catholic Indian Residential School. I wish to inform you that this school has nothing in the way of implements, as they have previously done no farming as the school was situated on a gravel bed where it was not possible to do any farming. The only things that I would recommend for the use of the school this year would be; 2 teams of horses, 2 sets of harness, a plow, a disc and a set of harrows.

I shall be glad to have your authority to make this purchase.

Mr. Duncan C. Scott,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ontario.

My dear Mr. Scott:-

Reverend Father J. L. Levern, Principal of Peigan Indian Residential School, had requested from the Department the purchase of a few horses and agricultural implements, all of which were to be used in order to prepare the land for next year.

If my memory serves me right, the Department advised Mr. Graham on June 13th to comply with the Reverend Principal's request. On July 25th, the Commissioner answered the Department that the above articles were not needed for the present year. Of course, he knows best.

On September 25th, Reverend Father Levern spoke of the necessity he had for horses and the implements to Mr. Christianson but on October 18th no news had been received as yet. The Reverend Principal insists upon the urgent need of horses, at least to bring over different things from the old school to the new one. Do you think that he could be accommodated and therefore given authority to buy a few horses for his present needs?

Yours very truly,

Dear Mr. Scott:-

I beg to forward herewith a report on the progress which is being made on the two schools on the Peigan Reserve, which was made by Mr. Inspector Christianson.

With reference to the Inspector's remarks regarding the implements and horses asked for by the Principal of the R. C. School. As already reported, the implements are not needed until next Spring, and it now appears that the Principal is not even in a position to take over the horses which I instructed the Inspector to buy while he was in the West. In referring to your letter No. 116-2-14 of November 9th., I note that you point out - "The Rev. Principal has urgent need of horses for hauling from the old school to the new." I am of the opinion that with the horses he has on hand he can find a way of getting along until Spring.

COMMISSIONER'S OFFICE,
REGINA, SASK., Dec. 8th, 1926.

DEC 8 1926

Dear Mr. Graham:-

I have the honour to report on the progress of the two new schools that are being erected on the Peigan Reserve.

The Roman Catholic School is pretty well advanced. The outside of the building was nearly finished and the lathers were at work when I was there and the plasterers arrived the day I left. The plumbing and steamfitting was also well under way, as they expected to be able to turn on the heat as soon as the chimney was finished which they were working at then. The outbuildings which I arranged for on my last visit were also well under way and should be nearly completed now. The Contractor expects to finish the school about the 15th of January.

The Church of England School is not as far advanced. They have, however, made good headway since my last visit. The walls were up as far as the roof, but the part housing the engines and so forth at the back of the school had not been started on, simply the foundation put in.

The barn and other outbuildings which I arranged for on my last visit were almost completed. The men expected to finish a day or so after I left. They have made a very fine job of the buildings and the Principal was highly satisfied with the buildings and the workmanship

the workmanship in general. Mr. Graham, the Contractor on the school, thought he would be able to finish up by the end of January. I doubt this; if he puts on enough men, he will no doubt be able to finish it by then, but the weather will be a big factor in the matter.

Regarding the implements and horses asked for by the Principal of the Roman Catholic School and authorized by the Department. The implements, of course, are not needed at the present time but the two teams of horses asked for, which I had your authority to purchase, will soon be required. However, I found that the Principal was not in a position to take the horses at the present time as I knew previously. He has only a small amount of feed and no place to keep them at the present time. I, however, picked out some horses and instructed Mr. Arthur to purchase them at such times when the Principal would be ready to take delivery of them. I did not think it wise to buy the horses now and take delivery of them and turn them out on the prairie.

I did not visit the Church of England School, but I was over at the Roman Catholic School and I had the Principal from the Anglican School up to the office to see me. On the whole, conditions are satisfactory at both schools.

I have the honour to be,

Sir,

Your obedient servant,

Sir:-

I beg to acknowledge receipt of your letter of the 20th. instant #116-2-14, in which you authorize me to purchase a wagon for use at the Sacred Heart (Peigan R.C.) Indian Residential School, and reply to say that this matter will be attended to, although I think that a wagon is unnecessary. The question of supplying a wagon was discussed with the Inspector who recently visited the Peigan Agency, and he told me that he thought they could very well get along without one. However, they took this matter up direct with you and I am now authorized to buy the wagon. I think you will admit this puts the Inspector in a very awkward position. It would be much better for the Inspectors not to say anything about matters of this kind, as they would not then be placed in the positions which they sometimes are. Personally I think it would be much safer to rely on the word of the Inspector than on that of the Principal or the Indian Agent. There is a tendency, as you know, on the part of the school authorities to get as much as they possibly can out of the Department when a new school is opened up. We know that they have a good wagon at this school at the present time.

Ottawa, Canada, February 26 1927

Attention Mr. R.C. Ferrier.

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir:-

Rev. Father J.L. Levern, O.M.I. Principal of Piegan Indian Residential School, is writing to me in connection for a request for a wagon.

The Reverend Father has a old wagon which in the opinion of the agent himself is rather old and not worth much though it can be utilized for some purposes. The Reverend Principal states that it is impossible to unload cars at the station or to do any work at harvest time with only one wagon. In fact the Reverend Father needs three wagons in all and he says the sooner he gets them the better.

I hope that you will give the Reverend Father's request your kind attention.

Yours truly,

Joseph Guy o.m.i.

Sir:

I wish to refer to my letter No. 116-2-14 of January 20th, last, and your 406-11A of the 24th idem in reply. The Rev. Principal of the Sacred Heart Indian Residential School, on the Peigan reserve, has written that he has but one old wagon and that he has urgent need of another at the present time as they are about to move to the new building. I should be pleased if you would arrange purchase without delay, if you have not already done so.

Your obedient servant,

J. D. McLean,

Dear Mr. Scott:-

With reference to your No.116-2-14 dated the 9th November last, I have today ordered a plow, a disc, and a set of harrows for use at the R.C. Indian School on the Peigan Reserve. As they also need a drill, I thought it well to place an order for this also, which I hope will meet with your approval.

The vouchers will go forward in due course.

COMMISSIONER'S OFFICE,
H.
REGINA, SASK., April 20th, 1927.

Sir:-

I have to acknowledge your No. 116-2-14 of the 12th instant with reference to farming equipment needed by the new Sacred Heart School. The disc and set of harrows mentioned in my letter of the 15th November last have been purchased and vouchered for to Ottawa on the 25th March and 31st March respectively.

In my letter of the 9th instant I referred to the purchase of certain additional equipment in the form of a mower, rake, binder and small cultivator, and I shall be glad to know if the Department will sanction these purchases. The last named should be bought at once but there is no immediate necessity to purchase the first three named, although it would be as well if the Department will authorise the expenditure, that I should be advised so that the purchases may be made in good time.

Your obedient servant,

W.M. Graham,
Indian Commissioner.

Sir:

I have your No. 406-11A R.C. of the 20th instant, relative to the farming equipment for the new Sacred Heart School on the Peigan Reserve. It is noted that the disc and set of harrows have already been purchased.

You may arrange for the purchase of a small cultivator and have same delivered to the school at an early date. You may also, when considered timely by you to do so, purchase a mower, rake and binder. In this purchase of this equipment, you should obtain competitive prices, and you should give the International Harvester Co. of Canada, Ltd., 305 - 9th St. North, Lethbridge, Alta., an opportunity to quote.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir:-

In Department letter No. 116-2-14 dated the 25th April last, authority was given to purchase a small cultivator. It was understood the School desired a small field cultivator and one has been purchased and can be made good use of.

It appears, however, that what the Principal desired in the first instance was a Planet Junior seeder and cultivator for garden use, and one of these can be purchased at a cost of about $24.00. I beg to recommend that this purchase be allowed.

Dear Father Levern:

With further reference to your letter of the 15th instant, I may say that I am very sorry to learn of your crop failure. I have made enquiry concerning your request for four more work horses, and it is with regret that I have to inform you that there are no funds available. You will remember that a year ago the Department supplied two teams for the use of the Sacred Heart Indian Residential School, and considerable agricultural machinery has been allowed. Further, at the request of Father Guy, we are providing for an additional five milch cows. I will give Mr. Indian Commissioner Graham authority to make the purchase in the spring.

Dear Father Therien,

I have to acknowledge the receipt of statements of articles, stock and implements which were the property of the Reverend Sisters at Standoff on the Blood reserve and the old Roman Catholic school on the Peigan reserve, and which have been transferred to the new school buildings.

I understand that it is the wish of Reverend Father Beys that the Department should pay for these articles. I am somewhat doubtful whether his wishes could be met, but I will take the matter into consideration, reserving decision for the present.

I am returning herewith the duplicate of letter addressed to me by Father Beys.

Yours very truly,

Duncan C. Scott.

Sacred Heart Indian School, Brocket, Alta, August 23. 1933

H.C. Lancaster,

Indian Agent, Brocket.

Dear Sir,

I regret very much to tell you that we are out of water : This morning we were not able to get any water from the old well neither from the spring, although we pumped for a long time!

As you are well aware,- a short while after we moved into this school,- we built a good dam across the coulee at a certain distance from the spring in order to gather all the water running from it and to form a pond for our stock. This pond has given perfect satisfaction until the spring was piped to the house : since that time, there has been no overflow running into it; however, the melting of the snow and some occasionnal heavy rains have kept it almost full the most of the time till this summer. It is dry now : it went dry last week, and therefore we started to pump for the stock as well as for the house, and that is how we ran out of water.

After all, this has not surprised me : the same trouble happenned already last Christmas, just because we used on that occasion more water than usual. There is very little water in the old well, and the spring itself has never been strong, as Mr. Gardner-Smith stated it in his letter of October 1931 to the Department.

Still, I hope that by using it sparingly, we may get water enough for the house and the milch cows ; but we must absolutely send the rest of the stock somewhere else, where they can drink. Napoleon Provost is willing to take charge of them at his place near the river, for $25,00 a month : I hope that the Department will approve of this arrangement and pay this monthly bill.

If we have a good rain to fill the pond again before the winter, we will be glad to take them back to the school : if not, we will have to leave them there and to take the trouble of hauling hay for them to that distance of six miles!

Under all these hard circumstances, it would be much more pleasant indeed for me to have no cattle at all here; but then how could I run this small school and pay all the expenses if I had to depend on no other revenue than the per Capita Grant?

Hoping that you will kindly communicate about this matter with the Department as soon as possible, I remain, dear Sir,

Yours truly,

J.L. Levern, omi

Peigan Agency, Brocket, Alta.

August 26th. 1933.

Sir.-

I enclose herewith a letter received from Father Levern, Principal of the R.C. school on this reserve in reference the water situation at the school. In regard to this I may say that owing to the drought this year spring on the reserve are running very little water and our range conditions both for water and grass are very poor.

The R.C. School here were given an extra quarter of land to enable them to raise feed for their stock, they are farming on a large scale and have about eighty head of cattle and it is watering this quantity of stock that has caused most of their water shortage and I think something should be done to have them cut down their herd. They claim the prices are low and they do not wish to sacrifice stock but the indians have to do it and these cattle being turned on our range makes that much less feed and water for the indian stock and I do not think the department is in any way responsible for the $25.00 per month they wish to pay the indian for looking after the stock.

It appears to me that the welfare of the indian children is a secondary consideration with our boarding schools now and that most of their energies are directed toward making money in farming and raising stock and that they should only be allowed to raise or hold the number of stock that can be pastured and fed on the land alloted to them.

I have the honour to be,

Sir,
Your obedient servant,

H.C. Lancaster.

Sir:

I have your letter of the 26th instant, enclosing a communication which you received from the Principal of the Sacred Heart Indian Residential School, on the Peigan reserve, with reference to the water situation and the quantity used for stock purposes.

It is considered that the school authorities themselves should be responsible for the payment of $25.00 per month to an Indian for the watering of the stock. It is noted that the school is farming on a large scale and has about 80 head of cattle. There does not appear to be any necessity for keeping such a large number. If this school keeps more stock on hand than conditions warrant, the management should dispose of part of the herd. In any event, as stated, the Department is not prepared to incur any expense in the providing of water.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

RE: Complaints of principal, Brocket School, Alta.
ATTENTION: Mr. T. Phelan.

My dear Mr. Phelan:

I am in receipt of a letter from Reverend Father G. Crépeau, O.M.I., of the above school, in which he complains of the damages that one of the bulls of the Agency has caused to the milk herd of the school. It appears that this bull fought a royal battle with the school bull and broke the fence around the latter's coral. To keep the peace the school bull had to be killed eight months before he was to have been disposed of.

It also appears that this same Agency bull attacked a cow and so violently that it tore an eye out of its socket and the cow had to be killed immediately.

These complaints were made to the Agent and the stockman without any avail. The bull is still on the school premises and is continuing to cause very serious damage. Father Crépeau says that his claim for the above is $250.00 and asks the Department to pay it without any delay.

The above complaints seem a little strange, I admit, but if true, something should be done about it, as agents must protect not only the property of the Indians, but to the same degree that of the Department of Indian Affairs. After all, it must not be forgotten that the Brocket School is Government property and the stock is also owned, at least in part, by the Department.

Very truly yours,

J.O. Plourde, O.M.I.

Attention B F Neary Eeqr.

I beg to acknowledge receipt of your letterof the 10th inst File 116-2-14 (W T 1).

As you state this is an unusual letter; and would seem to to be a very petty complaint of the past Principal. I approached the new Principal for information this being the first I had heard ofit, also my Stockman, and the Clerk in the Office to findif any such complaint had been made. It was found that the phone calls advising me that the Bull was in their field was all the Principal said. The new Principal advises me as follows that according to his employees, the Bull occasionally got into the field and when possible, battled the School Bull, but without damage. The question of the Cow is very far fetched, no one saw the cow attacked, the cow is still alive without the sight of one eye, and according to School employees as they do not know how the cow got hurt.

Our Bulls are only out for July, August, and part of September, and the rest of the year are in the Bull pasture 12 miles from the School; Every time we received a complaint one of our stockmen went down and removed the Bull and put it on the Range. However the main dam on our summer range where approximately 1200 cattle and 25 Bulls congregate is only one mile from the School fence, and we cannot control them all the time.

In conversation with the new Principal, he advises me that he intends to have a change of breedingcattle at the School and will likely change from Jersey's to shorthorns, if so he intends to ask permission to use our Bulls at odd times, so that I see no reason for this matter coming up again.

The claim is ridiculous, as the animal supposedto have been killed immediately is still very much alive, while I am advised the Bull was undamaged.

EX'D.

Ottawa, 26 September 1946.

Dear Father Plourde:-

On receipt of your letter of Sept. 5th in connection with complaints made to you by Rev. G. Crepeau, O.M.I., the Indian Agent was written and we have just received his reply.

He states that he interviewed the new Principal and it has been found, that, while one of the cows that belong to the school lost the sight of its eye none of the present school staff are aware of how this accident happened. In any case the animal is still alive. The Agent also reports that the school bull was not seriously injured.

In view of the information that we have received from our Agent, it does not appear necessary to take any further action.
