Historical language advisory

Certain parts of the Library and Archives Canada (LAC) collection contain historical language and content that some may consider offensive, for example, language used to refer to racial, ethnic and cultural groups. Items in the collection, their content and their descriptions reflect the time period when they were created and the view of their creator. The items retain their original descriptions to ensure that attitudes and viewpoints are not erased from the historical record. LAC provides additional descriptive information to give background on the records. This is an ongoing process. For more information, please visit LAC's Historical language advisory page.

Mise en garde – terminologie historique

Certaines parties de la collection de Bibliothèque et Archives Canada (BAC) renferment de la terminologie et des contenus à caractère historique que certains pourraient considérer comme offensants, notamment au chapitre du langage utilisé pour désigner des groupes raciaux, ethniques et culturels. Les éléments qui composent la collection, leurs contenus et leurs descriptions sont le reflet des époques au cours desquelles ils ont été créés et des points de vue de leurs créateurs. Les descriptions d'origine sont conservées afin que ces attitudes et perspectives ne soient pas supprimées des sources historiques. BAC fournit toutefois des renseignements descriptifs supplémentaires dans le but de donner davantage de contexte aux documents, le tout dans le cadre d'un processus évolutif. Pour en savoir plus, visitez la page Mise en garde – terminologie historique de BAC.

EXTRACT FROM AGENT'S MONTHLY REPORT ON THE ALBERNI RESIDENTIAL SCHOOL FOR THE MONTH ENDED SEPTEMBER 30th, 1926.

See Letter

Original on File #159-1-7.

I beg to bring to the attention of the Department that the only industry that is taught in this school (boys') is farming and that only to a limited extent, and when pupils leave the school that training is practically useless to them, as the West Coast Indians do not follow farming, and efforts to induce them to do so have met with very poor success, but if the Department could provide instruction in the use of carpenters' and fitters' tools, it would be a lasting benefit to the boys, as on leaving school they seek employment in canneries, fish plants and on fishing boats, and those with a knowledge of the use of tools are better able to secure well paid employment.

Sir:

Mr. Inspector Cairns, in a report on his recent inspection of the Alberni Indian Residential School, recommends that something be done to introduce manual training into this school. He states that Mr. Johnson, the senior teacher, is qualified to give instruction along this line.

Please state the equipment, etc., that would be required to commence work on a moderate scale in the introduction of manual training at this school. You should also state what accommodation could be provided as a classroom for this work.

The old classroom would make an excellent manual training room. I would recommend that this matter be given attention. If the present teachers remain this school would soon be in good condition having a high standard."

Indian Agent
Port Alberni.B.C.

Sir;-

I beg leave to submit for your consideration the following report on Manual Training at the Indian Residential School,Alberni for the year ending June 30th.1928.

During the year,93 classes were held showing a total working period of 232½ hours,all work was done in spare time.

The type of instruction was of two kinds. The smaller boys were given a course much the asme as that given to first year boys in the Manual Training School at Vancouver-, simple models for benchwork and drawing,for the larger boys who had taken the beginners course the previous year a more practical course aws arranged,drawing was confined to rough sketches and designs or the drawing of patterns on brown paper.

The first project was the construction of three benches 8'x 3',these were good strong carpenter workbenches giving ample room for two boys working at alternate corners,Designs for tool recks were submitted by the boys and the one considered the best was the oneused,The below partial list of articles made will show the nature of the course.

Hospital tables 4 ,Kitchen tables with drawer,cutting boards for kitchen use,pastry boards,axe handles,drawing boards and T squares, door handles,photo and picture frames,towel rollers,flower boxes, book shelves,toothbrush racks,benches for dining-room,bobsleighs, wall brackets,tabouret tables,and teapot stands.

The bpys have been praised for the quality of their work by visitors to the school,you,sir have while on visits of inspection,seen the work.

I much regret that during the last two months the classes have not been as regular as they might have been,I found the extra work very trying on my health,for this same reason the contemplated boat building was not commenced.

As I am leaving this school I must hereby tender my resignation as Instyuctor,I thank you very sincerely for your kindness and help.

I am,yours respectfully,
George Johnson,

Sir:

Referring to your letter of the 28th ultimo, relative to the retirement of the Rev. Principal and staff at the Alberni Indian Residential School as on June 30th, next, I beg to inform you that our Indian Agent at Port Alberni, B.C., strongly recommends th t, if possible, when the appointment of new teachers takes place, arrangements be made for the engagement of one qualified to carry on the instruction in manual training or for the re-instatement of Mr. R. Johnson, the present teacher. The Agent states that Mr. Johnson has proved himself a thoroughly satisf ctory teacher and an efficient and enthusiastic manual training instructor. The Agent states that if this work is not continued the expense which the Department incurred in outfitting the manual training class will be wasted. He further states that this is admittedly one of the most essential courses of study for Indian boys on the West Coast, where there is no farming. For your information I might add that at the present time the Department is allowing Mr. Johnson 75 cents per hour for this instruction. He gives two evening lessons of two hours each and a Saturday morning instruction of three hours each week.

I sh ll be pleased if you will draw this matter to the attention of the proper officers of the United Church for their consideration when arranging for the engagement of the services of a new staff.

Sir:

I have your 1895/26/1 of the 6th instant, with reference to manual training activity at the Alberni Indian Residential School. Your recommendation commends itself to the Department and you are authorized to expend the sum of approximately $175 for tools and materials. Competitive prices should be secured and, when you are submitting a certified account, in duplicate, in favour of the firm awarded the business, attach thereto a memo showing those asked to quote and the prices quoted.

It would be more satisfactory to the Department if Mr. Johnson, who will give three lessons a week, is paid on the basis of so much per hour. The Department will allow 75¢ per hour for this instruction, with the understanding that he should give two evening lessons of two hours each and a Saturday morning instruction of three hours. You should submit a certified account in favour of Mr. Johnson once each quarter, showing the number of hours of instruction.

IN YOUR REPLY REFER TO
No. 1895/26/1
ALSO
TO DATE OF THIS LETTER

Sir,--

I have the honour to acknowledge receipt of Department letter N o159-1-1, dated Ottawa September 27th, re Mr Inspector Cairns recommendation for manual training for pupils of the Alberni Indian Residential School, with your instructions to report on the same. I beg to advise the Department that the matter was taken up with Mr Inspector Cairns, some months ago and suggestions were presented to Mr Commissioner Ditchburn for his perusal and remarks, the matter was also taken up with the Mission authorities connected with the school, all of whom declared themselves thoroughly in accord with the suggestion, but aparently the time was not then opportune for action to be taken.

The old class room, a separate building used for class room purposes prior to the building of the present school is available as a manual training workshop, it ~~is~~ provides a room 30 feet by 22 by 10, is in good repair having been newly shingled and painted, is amply provided with windows and heating facilities, but would need to be wired for electric lighting if evening classes approved,

Mr Johnson the senior teacher is prepared to give three lessons each week, two evening lessons of two hours each and one lesson each Saturday morning of three hours, all lessons to be given in his own time after ordinary classroom work, The remuneration suggested, to be $ 200,00, per year.

Mr Johnson attended the Summer School of instruction in manual training during the past summer, to keep in touch with up to date methods.

There are 21 pupils at the Alberni Indian Residential School, between the ages of 13 and 18 years, these could be devided into 3 classes for instruction, each class could be given one lesson per week.

S hould the Department approve and provide for manual training for the pupils of the Alberni Indian Residential School, I respectfully beg to suggest that that training should take preceedance to farming instruction and that the Principal be so advised.

A list of tools and materials necessary for the instruction of a class of six and fitting up of the building, is enclosed herewith, with approximate cost of same. The fitting up of workshop can be done by pupils

Dear Sir:

Your letter of August 11th (file No. 159-1-1), approving of the appointment of Mr. Ross as Manual Training Instructor for Alberni Indian Residential School, was received at the office today.

Before writing Mr. Pitts, the Principal of the School, advising him of the Department's approval of this appointment, I would like to be clear on one point. Am I to understand that the Department will allow Mr. Ross remuneration as set forth in the last paragraph of your letter which was the basis on which payment was made by the Department to Mr. Johnson, the former Instructor?

Awaiting your reply, I am,

Sir:

I have to inform you that, at the request of the authorities of the United Church of Canada, the Department is approving of the appointment of a Mr. Ross, who is stated to be a practical carpenter and builder, to instruct the boys at the Alberni Indian Residential School in manual training. The Department will allow remuneration at the rate of 75 cents per hour for this instruction. He is to give two evening lessons of two hours each and a Saturday morning instruction of three hours each week. This remuneration will be paid upon receipt of a certified voucher, forwarded from time to time, for the amount due. Full particulars should accompany each voucher as to the number of hours and days this activity was conducted by Mr. Ross.

Rev. Sir:

Replying to your letter of the 8th instant, with reference to the obtaining of the services of a manual training instructor for the Alberni Indian Residential School, in which you enclosed a communication from the Principal, I have to say that the Department will approve of the appointment of Mr. Ross. It is noted that Mr. Ross is a practical carpenter and builder. It is hoped that he will meet with success in the work of instructing the boys at the school.

The Department allowed Mr. Johnston, the former manual training instructor, remuneration at the rate of 75 cents per hour. Mr. Johnson gave two evening lessons of two hours each and a Saturday morning instruction of three hours each week. I shall be pleased if you will inform Rev. E. R. Pitts, Principal of the School, of the approval granted for the appointment of Mr. Ross.

Dear Dr. Manning:

Your letter to Mrs. Clark re Manual Training in Alberni School was forwarded to me for reply.

On the retirement of Mr. Geo. R. Johnson, former teacher, it did not seem possible to get a classroom teacher with Manual Training Certificate. We have engaged a lady teacher for the class room and Mr. Ross, a practical carpenter and builder who lives here and who formerly taught this work to pupils in the Ahousaht Indian School has been engaged to carry on this work with the boys here. Mr. Ross also builds boats and launches and has been engaged in Indian work for a number of years. We trust that we shall be able to lay out a very practical and useful course in this line for the coming school term.

We hope that before long we may be able to extend this branch of our teaching to more useful proportions than in the past.

Yours sincerely,

(signed) F. E. PITTS.

JUL 1928

We are this morning in receipt of the following letter from Mrs. Clark, Secretary for the Indian Work of the W.M.S.:-

"Yours of the 13th to hand from the Department of Indian Affairs re the resignation of Mr. Johnson from our Alberni Staff.
The Principal wrote me to the effect that Mr. Johnson was resigning to go with a large Technical School and that he was re-organizing the whole staff and securing the best possible talent available. I presume it will take some little time to bring this about.
We are most anxious to continue the Manual Training. The Principal wrote me some time ago that he expected to have 95 or 100 pupils after vacation.
I will get in touch at once with our Principal, Rev. F. Pitts, and ask him to do his best to secure a successor to Mr. Johnston."

When we get further word in regard to this appointment, we will advise you.

Yours very truly,

G. Winifred Fulcher.

Reverend Sir:

I have your letter of the 4th instant, with reference to manual training at the Alberni Indian Residential School. The Department is prepared to allow $40 per month towards the salary of an instructor for this important work. You should keep this in mind when you are deciding what can be done. The Department has not received any requisition for necessary equipment, and I believe you should send this to Mr. Indian Agent Frost, asking him to forward it to the Department with his recommendation.

I am writing to Mr. Frost today, with a view to learning if something cannot be done to keep boys in the school until they are more mature. You might discuss this with him and keep in mind that the age for discharge from these schools is 18 and that we can compel attendance up to the 16th birthday.

Dear Mr. Ferrier:

Recently I have been having some correspondence with Mr. Indian Agent Frost with regard to the Manual Training instruction at the Alberni Indian school and he has forwarded to me a letter from Principal Pitts who states that he has now secured a Mr. Carr, as Farm Instructor and also to handle the Manual Training as he has had a course in Manual Training, Drafting, Blue Prints, etc. The Principal also states that he has secured the services of Mr. Eli Robinson, Principal of the Collegiate Institute at Stonewall, Man., to take charge of the senior classes. Mr. Robinson has also taught Manual Training for a number of years at Stonewall and he comes to the school prepared to take on any or all of the Manual Training work. However, I will write you further with regard to this particular subject at a later date, as I have gathered about all the information I can as regards what assistance should be given to different schools towards the salary of instructors.

Under separate cover, there has been directed to you a text on manual training and job sheets in wood-working. These are for the use of the manual training instructor at the Alberni Indian Residential School. At the present time, the Department is making special efforts to improve the instruction in manual and vocational training for boys in the Indian schools of British Columbia. If anything can be done to make this service more efficient, you should cooperate with Mr. Indian Agent Frost in preparing a recommendation to the Department.

Rev. Sir:

I have your letter of the 6th instant, with reference to the payment of the salary of a manual training instructor at the Alberni Indian Residential School.

In this connection I have to say that, as you were informed by official letter of October 25th, last, the Department is prepared to allow $40 per month towards the salary of the instructor, and this amount will be paid from the 1st of October, last. You should prepare an account in duplicate for the salary due the instructor for the three months' period ending December 31st, last, and again at the end of each quarter. These accounts you should hand to Mr. Agent Frost to be attached to proper voucher forms, certified by him and forwarded to the Department, when payment will be made. The accounts should be made in favour of yourself as Principal, and a cheque for the salary due each quarter will be sent you. Please forward as soon as possible to Mr. Agent Frost an account in duplicate for the amount of salary due for the December quarter.

We are informing Mr. Agent Frost of the arrangement made for the payment of the salary of the manual training instructor.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Mr J. D. McLean -
Ass't Deputy & Secy Dept of Indian Affairs
Ottawa.

Dear Sir - Will you please inform me how and when the grant for manual training to Alberni Indian School is to be paid.
I engaged a teacher for the senior classroom who is teaching the manual training - He began work on Aug 15th but our manual training was not properly organized till Oct - 1st since that date we have taken 2 hrs per week with each of 18 boys viz 6 Wed 4-6; 6 Thurs. 3-5; 6 Sat 9-11 -
Am I to make requisition through the Indian Agent for the grant each month and when shall it begin?
I am paying the teacher in his regular salary for this work and hope you will make the cheques payable to the school and not to the instructor as formerly. Yours truly

H. E. Pitts

EXTRACT from Report of G.H. Barry, Inspector of Schools for B. C., dated June 10 & 11, 1931, regarding his inspection of the ALBERNI INDIAN RESIDENTIAL SCHOOL.

Original on File 159-1-6.

MANUAL TRAINING:

In addition to the work on the farm, the boys learn to make such things as clock cases, tables, book shelves, chairs, etc. Twenty boys are taking this course. They do not follow the proper Manual Training Course, as their teacher Mr. A. Glen, has no certificate. He is able to teach the boys rough carpenter's work; but could not instruct in the more scientific Manual Training. The shop at present is use is situated under the primary classroom. It is about 40 ft. by 25 ft. There are 4 double benches.

I should like to see these boys taught real Manual Training. The difficulty seems to be that the City schools do not employ a Manual Training Instructor, who could put in some of his time with this class. The Principal seems to think that he would not be able to pay a trained teacher in this subject. I explained to him that the Department was very anxious that Manual Training should be taught in the Indian Residential Schools and were prepared to help in various ways.

SCHOOLS BRANCH
JUL 1931

Dear Sir:

I am submitting herewith report of School Inspector Capt. Barry in regard to the Indian Residential School at Alberni.

In connection with the Inspector's remarks anent manual training it will be noted he feels the pupils should receive more advanced teaching along this line than they are at present receiving from Mr. Glenn, who is really the farmer, but the Principal thinks he cannot afford to employ a manual training instructor. It will be noted in the staff list that Mr. Glenn is in receipt of a salary of $720.00 per annum with part board and lodging, which salary is to my mind little enough for the work he has to do on the farm. It will also be noted on the financial statement that this school is in receipt of a grant of $480.00 per annum for manual training. This amount apparently goes toward paying the salary of Mr. Glenn, who is described as besides being a farmer nothing more than a rough carpenter, who gives a certain amount of carpentry instruction to the pupils in the evenings, and as the case is now it really means that $480.00 which we pay towards the salary of a compentent manual training teacher really goes to pay about 2/3rds of the salary of the farmer, the balance of $240.00 being paid by the school. Apparently what is really needed at this school is a disciplinarian for the boys and if one with a fair knowledge of manual training could be secured, the intentions of the Department in regard to manual training would be much more efficiently carried out than is now the case.

As regards the fire escape, your file 159-1-5 contains full information with regard to the same. It would however, do no harm, and be of small expense, to have Inspector Barry's suggestion carried out.

Your obedient servant,

W. E. Ditchburn.

Ottawa, July 6, 1931.

Rev. Sir:

Mr. Barry, Inspector of Indian Schools for the Province of British Columbia, in a report on his recent inspection of the Alberni Indian Residential School, draws attention to the services being performed by Mr. A. Glenn, the manual training instructor. Mr. Barry's report was forwarded to the Department by Mr. Commissioner Ditchburn, who stated as follows:

"It is felt by the Inspector that the pupils should receive more advanced teaching along this line than they are at present receiving from Mr. Glenn, who is really the farmer, but the Principal thinks he cannot afford to employ a manual training instructor. It will be noted in the staff list that Mr. Glenn is in receipt of a salary of $720 per annum with part board and lodging, which salary is to my mind little enough for the work he has to do on the farm. It will also be noted on the financial statement that this school is in receipt of a grant of $480 per annum for manual training. This amount apparently goes toward paying the salary of Mr. Glenn, who is described as besides being a farmer nothing more than a rough carpenter, who gives a certain amount of carpentry instruction to the pupils in the evenings, and as the case is now it really means that $480 which we pay towards the salary of a competent manual training teacher really goes to pay about 2/3rds of the salary of the farmer, the balance of $240 being paid by the school. Apparently what is really needed at this school is a disciplinarian for the boys and if one with a fair knowledge of manual training could be secured, the intentions of the Department in regard to manual training would be much more efficiently carried out than is now the case."

The above is drawn to your attention for the necessary action by the Church authorities with a view to carrying out the above recommendations in regard to engaging the services of a qualified manual training instructor.

Your obedient servant,

A. F. MacKenzie,
Secretary.

#159-1-11.

Dear Mr. Ferrier: Re Farm Instructor and Manual Training Teacher at Alberni.

I am enclosing copy of a reply received by the Executive Secretary of the Woman's Missionary Society from the Principal of the Alberni School, with reference to your criticism of Mr. Glenn, his farm instructor.

I have also discussed this whole situation with Mr. Barner, who has during the last few months visited the Alberni School. He speaks of Mr. Glenn as being a man of good personality and fine character, and thinks that, considering the youth of the boys, he is giving them all the manual training they are competent to receive. He also expresses appreciation of the quality of the work which is being done.

I shall be glad to hear from you as to whether or not you intend to insist upon the hiring of a special instructor for this work immediately. It does seem that in a year when both the Department of Indian Affairs and our Board are in such straightened financial circumstances, we might very well carry on for another year at least.

With very kind regards,

I am

Alberni, B.C.,
July 22, 1931.

Dear Mrs. Spotton:-

Yours of the 15th instant just to hand re Inspector Barry's recommendation for the appointment of a qualified manual training instructor. I am indeed pleased that this matter has been taken up through the general offices of the church. Allow me to go into the matter thoroughly that you may understand the situation and decide accordingly.

Mr. Glen is farm instructor and also manual training instructor. He had worked at carpenter work for six years before coming to the school. During the last year he has done some very good cabinet work with the boys in manual training. Re. Mr. Glen's salary as stated in the letter of the Department is $720.00. The type written statement of salaries I gave to Inspector Barry was farm and manual training instructors salary $720.00 with part board, free house, partly furnished, free water, free fuel and free electric light, approximately $1100. With all these things free the salary is worth $1200.00 - $480. is the special grant for the manual training. The Department should not have said they were paying two thirds of his salary.

The statement that he gives a certain amount of carpentry instruction to the boys in the evening is not correct. Seven senior boys made up the class Wed- 7-9 P.M. Nine intermediate boys Friday 3-5 P.M. and nine junior boys Sat. 9-11 A.M. These classes were followed out regularly. As the work took the farm instructor away from farm work practically all of Friday afternoon and Saturday forenoon I do not think that the $480.00 more than paid for the service in this department. Three years ago I had a qualified manual training instructor as senior teacher. The Department paid him 75 cents per hour for any kind of work. The result was that my teacher went to Technical School in Vancouver for this work at $2000.00 per year. The city of Alberni with four class room teachers - Port Alberni with eight teachers and high school with four teachers are near us. Acting with Mr. Kyle, Supervisor of Technical Education in British Columbia, I tried to arrange with these school boards to get a teacher between us for this work but these boards would not on the ground that they could not afford it.

In a letter to the Department through Mrs. Clark, dated Oct. 14th 1921, I pointed out that we could not do much at Manual Training so along as the boys were allowed to leave school at 16 years. We have no boys over 16, our list shows only 6 above 14 years and one of these was drowned since holidays.

8 boys 14 yrs. and 6 boys 13 yrs. If these big schools in the towns cannot afford a manual training teacher it hardly seems fair that the Department should ask us to get a Technical teacher for 19 young boys between 13 and 16 years. Of course, I would be pleased to have an extra man on the staff to take some of the work and responsibility off me but an extra man for this work means another $1200.00 or $1300.00 at least, from the church. In view of the present conditions in our church and country I am not prepared to recommend this expenditure.

I engage a missionary staff who work for less and do work they would not otherwise do, because it is church work, we run the school with the strictest possible economy to keep down expense and yet even with this self sacrificing, hard work and economy the per capita grant covers only about two thirds of the expense of the school. I paid to three qualified, trained in Normal, teachers with three or four years experience total $2280.00 with board. Yet with this careful management and the church furnishing one third of the expense, the Inspector points out repairs to the large building and equipment and I am instructed to have these repairs made and pay for it out of school funds. This happened a day or two ago in a letter from Secretary McKenzie of the Indian Department instructing me to have the 84 horsepower heating boiler overhauled during holidays and pay for out of per capita grantor other school funds.

I would be pleased to see a copy of the contract or agreement between the church and the Department about the management of these schools. If there is any expense for typing it I will pay for it.

I shall be glad to hear the decision of your Board as to securing a qualified Manual training instructor. As there are none available, except carpenters, outside the cities of Victoria or Vancouver, and the work would be for only a few hours each week, it is not easy to reorganize our work to use such a member of staff unless he works at something else as well as Manual training.

Yours sincerely,

Sgd. F.G. Pitts.

1. Report

EXTRACT from Inspector Barry's Report regarding his visit to the ALBERNI INDIAN RESIDENTIAL SCHOOL on April 26th, 1932.
Original on File 159-1-6.

By noted

Vocational Training:-

In addition to the ordinary house work, the girls learn to mend, darn, make dresses, make boys' shirts, knit, crochet, etc. The embroidery and fancy needlework are very good indeed. The girls do not make bread at this school. They take it in turns to learn to cook.

In addition to work on the farm, the boys are doing some sort of Manual Training under a new teacher, a Mr. G. Lundine. This man is reported to be a cabinet maker. He takes three classes per week, two lessons being given on Fridays and one on Saturdays. Each lesson last for two hours. There are 19 boys in the Manual Training Classes, which had only just been started under the present teacher when I inspected the school. The teacher is paid $5.00 per week. I understand that the farm instructor, who is leaving at the end of the school year I understand, is also being paid for Manual Training which he is not doing. The Principal was not able to explain this to my satisfaction; but I gathered that he had given the Farm Instructor some sort of a contract which he could not get out of. [illegible] Six drawing boards are required for the use of the class. These should be paid for by the school in my opinion, in view of the fact that the Department makes a larger grant to the school than is being used for suitable Manual Training. The Manual Training shop in use is situated under the Primary schoolroom. It is about 40 feet by 25 feet, and there are 4 double benches.

I should like to see a proper Manual Training instructor employed at this school. I have been in touch with the Director of Manual Training and Technical Instruction for the Province of B.C. and am informed that there are available a number of partly trained M. T. Instructors, who are also teachers, and belong to the United Church of Canada. One of these men could easily be selected who would be able to teach the senior grades, and instruct in Manual Training. If a girl is preferred as teacher, such a man might well take the position of Boys' supervisor, and be responsible for the boys when out of school and not with any other teacher or instructor.

I am not satisfied with the new arrangement for the Manual Training on the grounds that the teacher does not hold as far as I can learn any sort of certificate and does not appear to me to have much idea of what is required, and also because the money paid by the Department does not appear to be used for the purposes intended and specified under the heading Manual Traihing Instructor.

I would ask the Department not to do anything in the matter till I have the opportunity of again inspecting this school in September of this year. I am so much dissatisfied with the general administration of the school that I particularly wish for the opportunity of again inspecting before making a definite recommendation to the Department. I have had a short conference with the Rev. Arthur Barner with regard to the school, and have informed the Principal that, had it not been for the fact that the school was so much cleaner than had been the case on the occasion of my inspection last year, I would not have hesitated to ask the Department to request the United Church of Canada to make a change in the administration of the school, by the appointment of a new Principal.

Ottawa, July 27, 1932.

Sir:

I have your letter of the 20th instant, enclosing a requisition for manual training supplies for the use of the Alberni Indian Residential School. In reply I have to say that the Department will approve of an expenditure not exceeding approximately the sum of $9 in the purchase of the equipment, as mentioned in the requisition, a copy of which is returned herewith for your information. After the purchase has been made, please obtain itemized accounts, in triplicate, covering the expenditure incurred. These, you should attach to proper voucher forms, certify in the usual manner and send to the Department for payment.

Encl.

Ottawa, February 28, 1934.

Rev. Sir:

As soon as possible after March 31st next, you should forward to the Department a detailed report regarding the vocational training that is given at the Alberni Residential School. This report should contain the following information:

(a) Instruction: Name, age and qualifications of instructor or instructors.

(b) Industries: Under this heading you should specify the industries taught, the number of pupils in each industry, number of hours weekly that each pupil is engaged, and list of work accomplished during the period April 1, 1933, to March 31, 1934.

(c) General Remarks: Under this heading you should state if the pupils are interested, and if you consider the results that are being obtained justify the expenditure that is being made.

If you feel that the value of the course could be improved, you should state in what manner you believe this could be done.

In addition to the above, you should let me know what is being done at your school to carry out the instructions contained in circular letter of March 18, 1931, a copy of which is enclosed.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Alberni, B. C. April 12, 1934.

DEPT. OF INDIAN AFFAIRS APR 18 1934

Mr. A. F. MacKenzie,
Sec'y Dept. of Indian Affairs,
Ottawa, Canada.

Dear Sir:

In reply to yours of Feb. 28th #159-1-11, I beg to report as follows:

F. E. Pitts, Principal--Graduate in Arts and Theology and ordained minister of former Presbyterian Church, now of the United Church, 63 years of age. Has charge of the religious teaching and services of the school, supervision of all departments, management of the farm, recruiting and discharging of the children and full responsibility for all matters of discipline, finance, reports to the Department and all office work.

Mrs. Pitts, Matron in charge is 60 years of age. Graduate of Alexandria and Oshawa Colleges and gold medalist in music. Has supervision of all the ladies departmnets of work and instruction. Teaches instrumental music to about 30 children individually and singing to all collectively, and jointly with the principal looks after the health, nursing of the children and religious services. Gives out all supplies of food, shoes, clothing and material for laundry, sewing room and kitchen.

Mr. Lawrence Wallace, Senior Classroom Teacher, age 21, Second year university and normal training.

Miss Laura Lane, Intermediate Teacher, age 30. Grade XII (1st class) normal training.

Miss Retha Pitts, Primary Teacher, age 27. Grade XII (1st class) normal training, music, and primary certificates.

Miss Grace Newman, Seamstress, age 28. Grade XI and normal training. Teaches needlework, dressmaking etc.

Miss Clara McLeod, age 45. Stenographer and clerk. Teaches laundry work very efficiently.

Miss Blanche Muir, age 32, very efficient cook and manager in the kitchen. Teaches the girls, cooking and baking and all housework in that department.

Miss Ruby Clark, Boys Matron, age 28. Has some training in nursing. Looks after the boys side of the building, boys' clothing, etc.

Mr. Ernest Muir, Farm Instructor, age 31. Raised on a farm. Had 2 years in Manitoba Agricultural College, Winnipeg. Trained in military aeroplane flying. Teaches the boys the farm work, milking, care of stock etc.

Mr. Gus Lundine, Manual Training Instructor is a ship-carpenter a good practical teacher and gives the boys very careful instruction in all kinds of carpenter work, making diagrams of the work. The boys furnished a very creditable collection for Vancouver Pacific Exhibition last August. 21 boys divided in classes of 7 each take 2 hours per week each in this class.

It is difficult to specify how many hours per week each pupil has been engaged in each department and to say definitely what each has accomplished as all these have to be varied according to the age, health and strength of the child. The pupils of 14 years and over except those in the entrance class are working in these departments for the half day. They are changed every two months from one department to another so that each child gets training in all the departments. All children vary in what they accomplish. Our boys in the final years when they stay in till 18 years of age are able to handle a team, milk, care for stock and do nearly any kind of farm work that a boy can be expected to do. They have also a pretty good knowledge of handling tools for carpenter work. Of course tradesmen are not turned out at 18 years whether white or Indian. The girls at 18 have a pretty thorough knowledge of the work of cooking, baking, dressmaking, knitting, needlework and general house work and are very efficient at it. When we need extra labor we always engage ex-pupils and find them more satisfactory than any white help we could get.

One of the difficulties in managing an Indian School is to find a staff who know the work in the departments better than the senior pupils.

These towns of Alberni and Port Alberni have a large school population in public and high schools. A great many of the parents have said to me that the children of the Indian School get a much better all-round training than their children do.

Under general remarks I have only to say that the children are bright and teachable, interested in their work and do their work remarkably well. They do this even knowing that when they go out from school the things we have taught them they will have no chance to use.

Do the results justify the expenditure? At the time they go out of school, yes, decidedly yes. Ten years later it may be doubtful. The fault is not theirs. It is not the school course that needs change so much as the conditions to which they go when they leave school.

We endeavour to teach the pupils farming, gardening, milking and anything that would be useful to them after they leave school. It is difficult to teach the girls milking, gardening and outdoor work as it requires special clothes just for this, extra supervision, cows go dry quickly with too many youngsters milking.

I think the present school course is well adapted to develop the Indian child to the position where he or she can fit into our present civilization. Two factors, not generally taken into account work against the best results. First, the Indian thinks he is disloyal to his own race if he is too much like a "white man," and second, the "white man" won't give the Indian a job or position on the same terms and standing as if he were white. It will take a couple of generations to overcome both of these.

Yours obediently,

H. E. Pitts

Ottawa, April 8, 1936.

Dear Sir:

The following is an extract from a report of Inspector Barry, regarding his recent inspection of the Alberni Indian Residential School:-

> "With reference to my report on vocational training at this school, as given in my last report, I may say that I am still of the opinion that money spent by the Department in the teaching of boat building at such a school as this would be wasted, but that instruction might well be arranged for in the repair and maintenance of electric lighting systems and the repair of small marine engines. Many of the boys who attend this school will be using fishing boats after they leave school, and the knowledge of marine engines and electric systems as used on fishing boats would be of great use to them after graduation. It is along such lines that the vocational training might be developed at this school."

The Inspector's remarks should be drawn to the attention of the Principal.

Yours truly,

A. F. MacKenzie,
Secretary.

Dear Sir,-

With reference to your letter of the 23rd instant, I enclose the account which you received from the Principal of the Alberni Indian Residential School, covering the cost of supplies purchased for the manual training class.

If you consider that these supplies were required for manual training purposes, the Department is disposed to favourably consider payment of the account.

You should, however, point out to the Reverend Principal that, in future, such accounts will not be paid unless departmental authority has first been secured.
